

## Aloe Vera Powder

### FACT SHEET

**Description:** Concentrated 200x aloe vera powder derived from the hollow interior of the leaves of the Aloe plant (aloe barbadensis Miller). Consists of >75 ingredients including amino acids, enzymes, hormones, minerals, saponins, sterols, sugar (starch), lecithins & vitamins. Dry Powder, faint herbal odor. Water-soluble. CAS# 8001-97-6.

**INCI Name:** Aloe barbadensis.

**Properties:** Potent moisturizer, regenerating & healing agent (penetrates skin stimulating the immune system & increasing blood circulation), anti-inflammatory effects, anti-aging effects (increases collagen synthesis & skin elasticity).

**Use:** Dissolve in water to make stock solution that is adequate for adding to formulas. Due to high concentration (200x) it can also be added directly to formulations at very low dose.

**Applications:** All skin care products, soothing creams & lotions, sun care & after-sun products, shampoos & conditioners. Aloe vera in powder form is especially convenient when making large batches. It has also a longer shelf life than liquid aloe vera.
