

Cucumber Fruit Extract

FACT SHEET

Description: Cucumber fruit extracted in glycerin and water. Cucumber has a high content in minerals, potassium and sulfur and is being used in skin care to soften and hydrate the skin, especially suitable for after-sun products but also cleansing products to soften the skin. Water-soluble. CAS# 89998-01-6, 56-81-5.

INCI Name: Cucumis sativus (cucumber) fruit extract.

Properties: Cucumber fruit extract is a natural skin emollient and softener with cooling and astringent properties, ideal in skin cleansers but also soothing body lotions and skin creams, especially after sun treatments, softens & nourishes hair.

Use: Add to formulas as is, typical use level: 3 - 5%. For external use only.

Application: Creams & lotions, skin cleansers, hair care products, after-sun products, hair moisturizing sprits, hair conditioners and body lotions.
