

Edelweiss Extract

FACT SHEET

Description: High-purity extract from the Swiss alpine flower Edelweiss (*leontopodium alpinum*). Active ingredients: bisabolane, sitosterol, tannin, chlorogenic acid, apigenin-7-glucoside, luteolin, luteolin-4-glucoside. Preserved with vegetal glycerin, butylenglycol, ethanol. Very high radical scavenging activity of antioxidant products of 286 (= Radical Protection Factor, RPF). Antioxidant activity twice as much as vitamin C. Clear dark brown liquid, faint plant odor. Easily water-soluble. CAS# 391900-47-3, 56-81-5.

INCI Name: *Leontopodium alpinum* extract.

Properties: Potent antioxidant with very effective anti-aging, anti-inflammatory & anti-septic properties, protects the skin before & after sun exposure. Together with sun-filters skin protection is enhanced further.

Use: Add to formulas as is, use level: 3 - 5%.

Applications: Anti-aging & anti-wrinkle products, pre/after sun lotions, hydrating / antioxidant skin care treatments, eye wrinkle treatment.
