

Fragrance Orange Mimosa

Material Safety Data Sheet (MSDS)

1. Product Identification

Product Name: Orange Mimosa Fragrance 0221

INCI Name: Fragrance Compound

Chemistry: A multi-component mixture of fragrance ingredients. Specific identities of the ingredients not listed are considered Trade Secrets and are withheld in accordance with the provisions of 1910.1200 of Title 29 of the U.S. Code of Federal Regulations.

CAS Number: not available

EINECS Number: no data available

2. Physical & Chemical Properties

Melting Point: not determined
Boiling Point: not determined
Non-Volatiles: not determined
Viscosity: not determined
Specific Gravity: not determined
Solubility in water: not determined
Refractive Index: not determined
Appearance & Odor: Yellow liquid, floral-citrus odor.

3. Stability & Reactivity

Chemical Stability: Stable under normal conditions of storage and handling. It presents no significant reactivity hazards by itself or in contact with water.

Incompatible Materials: Avoid contact with strong acids, alkalis, or oxidizing agents.

Hazardous Decomposition Products: Carbon Monoxide and unidentified organic compounds may be formed during combustion.

Hazardous Polymerization: Will not occur.

4. Handling & Storage

Handling precautions: Avoid inhalation and contact with the skin and eyes. Good personal hygiene practices would be used. Wash after any contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be cleaned before reuse. An eyewash fountain and/or safety shower should be available in the work area.

Storage Precautions: Store in a cool, dry, ventilated area away from any heat source. Keep containers tightly closed and upright when not in use.

Other Precautions: none specified

5. Accidental Release Measures

Personal Protection: Avoid inhalation and contact with the skin and eyes. Self-contained breathing apparatus and protective clothing is advised for major spills or leaks in confined areas.

Procedures: Eliminate all ignition sources. Contain spill and recover free product. Absorb remainder with vermiculite or other suitable absorbent materials. Use Sodium Hypochlorite solution (bleach) to neutralize odor. Avoid contamination of soil, ground, and surface water. While no specific environmental toxicity or related data is available, fragrance compositions are not expected to accumulate in the environment and environmental problems are not expected under normal conditions of use.

6. Exposure Controls & Personal Protection

Respiratory Protection: Not normally required, but if vapor concentration is high due to high temperatures or other use, handling, storage, or disposal conditions use a NIOSH approved organic vapor respirator.

Protective Clothing: Use chemical resistant gloves as needed to avoid prolonged or repeated contact. Use goggles or face shield when eye contact may occur.

Other Protective Measures: Provide local exhaust meeting ACGIH criteria as needed. Use SCBA for major chemical spills.

7. Hazards Identification

Primary Routes of Exposure: Skin, eyes and inhalation.

Potential Health Hazards: This mixture has not been tested as a whole. It contains ingredients present at concentrations exceeding OSHA thresholds that undiluted and at ambient conditions could have the following health hazards.

Acute Exposure: May be irritating to skin and eyes. Repeated contact may cause allergic skin reaction. May be harmful if swallowed.

Cancer: Not a carcinogen.

Target Organs: None.

Developmental: No data available.

Pre-existing Medical Conditions: None known.

8. First Aid Measures

Eyes: Flush immediately with water for at least 15 minutes. Contact a physician if symptoms persist.

Skin: Remove contaminated clothing. Wash affected area thoroughly with soap and water. Contact a physician if symptoms persist.

Inhalation: Remove from exposure to fresh air. Obtain medical advice as necessary. Resuscitate or administer oxygen as needed.

Ingestion: Give water to dilute and obtain medical advice.

9. Fire Fighting Measures

Flash Point: >142 Deg F (typ. anal.) CCC

Extinguishing Media: Use water spray, dry chemical, carbon dioxide, or appropriate foam.

Fire Fighting Procedures: Wear NIOSH approved self-contained breathing apparatus and full protective clothing when fighting fires involving chemicals. Use water spray to cool containers exposed to fire.

Unusual Fire and Explosion Hazards: None known.

10. Toxicological Information

Target Organ Effects: None.

11. Disposal Consideration

Place material into sealed containers and dispose of in accordance with local, state, and federal regulations.

12. Transport Information

DOT Shipping Name: not regulated

ADR/RIC Code: not regulated

Sea Transport IMDG Code: not regulated

Air Transport IATA: not regulated
