Phase C		
GelMaker EMU (thickener/emulsifier)	1 %	2.4 g / 0.1 oz / 1/2 tsp
SkinTight AP (active ingredient)	4 %	9.6 g / 0.3 oz / 2 tsp
Vitamin A Palmitate (active ingredient)	1 %	2.4 g / 0.1 oz / 50 drops
Paraben-DU (preservative)	1 %	2.4 g / 0.1 oz / 50 drops
Fragrance	0.2 %	0.5 g / 0.02 oz / 12 drops

Method

Add phase A into a disinfected, heat-resistant glass beaker and heat to 175oF/75oC. Add phase B into another disinfected, heat-resistant glass beaker and heat to the same temperature to melt the ingredients, stir frequently. Then add phase B to phase A and stir well to form the cream. Remove from the heat and cool to 100F/40C, stir frequently. Add GelMaker EMU from phase C to phase A/B and stir very well, it will adjust viscosity. Add the remaining ingredients one by one stirring after each ingredient. Fill the cream into treatment pumps or cream jars.

Properties

Anti-aging treatment cream for the face but also for the decolleté and bust. It increases firmness of the skin due to SkinTight AP and SkinLift DPHP but it also shows powerful anti-wrinkle action by stimulating contraction of collagen fibers, with long lasting firming and moisturizing effects. SkinLift DPHP reduces the number of depth of both deep and medium-deep wrinkles after a 28 day application.

Vitamin E, C and A act as anti-oxidants and protect the skin from free radicals, plus regenerate and moisturize the skin. Aloe Vera concentrate soothes the skin. This is a very rich skin treatment.
