**Method**

Add the titanium dioxide into a mortar and add the pearl white mica to it, stir very well and thoroughly with the pestle until the color is uniform. Add then one ingredient after another to the mortar, mixing well after each addition. Then add phase A to the mortar and blend well, for several minutes or until the ingredients are mixed and the color looks uniform. Fill the eye shadow into an eye shadow jar and press it with a suitable tool into eye shadow containers. Tip: make only half of the recipe 50g is a large amount to mix in the mortar.

**Properties**

Smooth light colored eye shadow with a nice glitter that is easy applied and adheres well.
