

Sheer Lip Gloss Lilac with Vitamin E

(Sample Recipe for Vitamin E Tocopherol)

Sheer Lip Gloss Lilac with Vitamin E		
Phase A	Weight %	For 50 g / 1.8 oz
Jjoba Gel (emollient)	72 %	36 g / 2 ½ Tbsp
Jjoba Oil (emollient)	24.7 %	12.3 g / 2 ½ tsp
Carminc Red Mica	2 %	1 g / ½ tsp
Blackstar Red Mica	1 %	0.5 g / ¼ tsp
Vitamin E Tocopherol (antioxidant)	0.2 %	0.1 g / 2 drops
Vitamin E Acetate (antioxidant)	1 %	0.5 g / 12 drops
Phenoxyethanol- SA (preservative)	0.8 %	0.4 g / 9 drops
Food Flavoring (flavor)	0.3 %	0.15 g / 3 drops
Method		
Add phase A one by one into a glass beaker and stir well until uniform. Adjust the color with mica as you wish. Fill the lip gloss into lip gloss containers with applicator, using a pipette or syringe. The lip gloss is very viscous to make it more liquid and therefore easier for bottling warm it to 50C/122F.		
Properties		
Jjoba Gel is a very viscous jjoba product with great sheer. Formulated with liquid jjoba, and vitamin E's as antioxidant protection. The lip gloss can be used over lipstick or just as is.
