

Hydro Cream Base

Specification Sheet

Description: Light, very pleasant cream base with a focus on hydration. It has a non-oily feel and can be used as a moisturizer or light serum type before applying anything heavier such as night cream or makeup. Has a soft, satiny finish. Ideal for all skin types, also oily skin.

Ingredients: Water, glycerin, dicaprylyl carbonate, cetyl alcohol, glyceryl stearate citrate, tocopheryl acetate, myristyl myristate, stearic acid, phenoxyethanol, squalane, jojoba oil, ethylhexyl glycerin, flax seed oil, allantoin, carbomer, panthenol.

Use: Can be customized further by adding up to 15% (volume percentage) of additional liquid ingredients. If needed, you may incorporate GelMaker EMU in order to make the lotion thicker.

Adding Acids: A small amount of acids such as AHA fruit acids can make the cream unstable and may separate, please test pH and adjust acidity with TEA (triethanolamine) and test pH again. A good pH is in the range between 4.5 and 6.5.

Appearance: White to off-white, soft cream, bland odor.
