

Sunflower Oil, USDA Organic

Specification Sheet

Description: Organic pure natural oil derived from the seeds of sunflowers. High oleic form as it contains a high amount of oleic acids which make the oil more stable and resistant to oxidation. Cold-expressed, rich in the vitamin E, oleic acids, and low in saturated fat. Relatively resistant to oxidation. Clear honey-colored oil tan liquid, bland odor and taste.

CAS: 8001-21-6

INCI Name: Organic *Helianthus annuus* (sunflower seed) oil

Benefits:

- Effective humectant, nutrient and emollient for the skin
- Nourishes and softens skin and hair
