Method

Add phase A into a glass beaker and heat to 154oF/68oC, until the wax and butter is melted. Remove from the heat. Add phase B and stir until uniform. Fill the mixture while still liquid into lip balm sticks or lip balm jars. As soon as the liquid has become solid, the lip balm is ready to use.

Properties

Solid lip balm with natural shea butter for well-moisturized lips. Formulated with allantoin and vitamin B5 to provide soothing and antioxidant properties. Precious jojoba oil has been chosen as emollient.
