Fragrance Clean Linen	Fragrance	0.20	0.20	0.01	0.04

Method

Add phase A ingredients in order, stir but don't mix. Add phase B to phase A, one by one, and stir between ingredients, until homogeneous. pH 5.5. Thin viscosity. Add to a foamer pump bottle.

Properties

Basic formulation that can customize further by adding additional herbal extracts if needed, but not necessary. The pump will produce a gentle foam, that cleanses the skin gently. Suitable for the normal to oily skin types.
