**Method**

In a mortar and pestle, combine the Zinc Oxide and pigment blend of your choice (see 7 shades on our website), blending until completely uniform. Using a brush, wipe a small amount of the mixture on a white piece of paper to ensure it is fully combined and no streaks occur. Add each ingredient after, blending well in between each. Package into small jars with a sifter.

**Properties**

This tinted face powder layers beautifully on the skin, perfect for a natural, bronzed summer glow. Enough pigment to cover spots and give the skin a natural look, yet lightweight enough to be worn on hot summer days. The perfect low-maintenance can-do-it all powder!
