Method

Combine phase A ingredients in a disinfected, heat-resistant beaker. Stir well and allow to hydrate for 30 minutes so the gum can thicken sufficiently. Add phase B ingredients one by one, stirring after each addition gently to incorporate. pH should be 6.

Properties

Brightening Eye Serum pairs the powerful combination of ingredients in our Eye Complex 4 with the soothing properties of Vitamin B3. Together, the eye area is brighter, smoother, and firmer. Wrinkle blur helps reduce the appearance of fine lines such as crows feet, and this fragrance-free formula is great for even the most sensitive skin. Lightly scented with Lavender Hydrosol to prevent irritation caused by synthetic fragrances without being too strong to cause discomfort.
