

1573 - Quick Concealer (30.00g)

Ingredient	Function	Percent	Wgt (g)	Wgt (oz)	Vol (tsp.)
Phase A					
Natural Cream Eye Shadow Base lauryl laurate, caprylic/capric triglyceride, polyhydroxystearic acid, isododecane, trimethylsiloxysilicate resin, candelilla wax, octyldodecanol, titanium dioxide, talc, sunflower wax, silica, dimethicone, tocopherol.	Base	90.35	27.11	0.96	5.42
Titanium Dioxide For Makeup, Liquid (titanium dioxide, octyldodecanol)	Pigment	7.63	2.29	0.08	0.46
Polymethylsilsesquioxane	Texture	1.23	0.37	0.01	0.07
Iron Oxide Yellow, Liquid (CI 77492 [iron oxides], octyldodecanol)	Pigment	0.61	0.18	0.01	0.04
Iron Oxide Brown, Liquid (CI 77492 [iron oxides], castor oil)	Pigment	0.18	0.05	0.00	0.01

Method

Phase A: Add 30grams of natural eye shadow base to a heat resistant beaker glass. Add color dispersions. Melt base with color until liquid, stir well then pour into 1 small pot. Adjust color slightly then pour into a second pot, adjust color again (e.g. add titanium dioxide for makeup to make it lighter) and pour into 3rd pot. With this color variation you can match and blend your personal color.

Properties

Quickly made using our natural eye shadow base. Color and coverage can be customized using different proportions of color dispersions.
