SECTION 4- FIRST AID MEASURES

Ingestion:	If swallowed, observe victim for 24 hours; seek medical attention if indicated. If vomiting occurs, keep head lower than hips to prevent aspiration.
Skin:	For skin contact, wipe away excess material with dry towel. Then wash affected areas with plenty of water, and mild soap if available, for several minutes. Get medical attention if irritation occurs.
Inhalation:	If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.
Eyes:	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.
Note to Physician:	Treatment based on sound judgment of physician and individual reactions of patient.

SECTION 5- FIRE FIGHTING MEASURES

Flash Point:	269 deg. C
Method:	The test method used is listed as closed cup (PMCC TCC) or open cup (COC): COC
Flammable Limits in air – Upper (%):	Maximum % by volume of vapor in air above which propagation of flame does not occur on contact with a source of ignition: ND
Sensitivity to Mechanical Impact (Y/N):	No
Sensitivity to Static Discharge:	Sensitivity to static discharge is not expected.
Extinguishing Media:	Water fog, carbon dioxide, foam, dry chemical
Special Firefighting Procedures:	Fire Fighters should wear self-contained breathing apparatus and full protective clothing when fighting chemical fires. Use water spray to cool nearby containers and structures exposed to fire. Containers can build up pressure if exposed to heat (fire). Fire involving large amounts of material should not be approached because individual containers may rupture abruptly causing "fireball" effect.

SECTION 6- ACCIDENTAL RELEASE MEASURES

Wash walking surfaces with detergent and water to reduce slipping hazard. Large quantity spills should be contained and pumped into drums for recovery or disposal. Wipe, scrape or soak up in an inert material and put in a container for disposal. Wear proper protective equipment as specified in the protective equipment section.

SECTION 7- HANDLING AND STORAGE

Precautions to be taken in Handling and Storage: Good hygienic practices should be observed. Work clothes should be washed separately at the end of each work day. Disposable clothing should be discarded with material.
