Polyquaternium-10	(Polyquaternium-10)	Conditioner	0.80	0.40	0.01
Urea	(Urea)	Humectant	5.00	2.50	0.09

Procedure

Phase A: combine ingredients and blend well. Add HE-Cellulose and let hydrate for awhile, then blend well.

Phase B: Disperse the urea in the water, then add the polyquaternium-10, blend well. Combine both phases and blend well. May thicken further overnight.

Properties

This hand & foot soak concentrate softens the cuticles and soles of the feet. It delivers powerful hydration due to the moisture-binding properties of urea and sodium PCA.
