Kaolin Clay, Rosa	Kaolin	Texturizer	0.50	0.25	0.01

Procedure

Phase A: Blend emollients slowly into the BioJelly, under constant stirring, until even and smooth.

Phase B: Pre-mix, then add gradually to phase A under good stirring until smooth.

This product is best packaged into a bottle with treatment pump.

Properties

Primer that leaves the skin satiny and prepped for makeup applications. A little product goes a long way. Contains powders that have a blurring effect.
