Phase B					
Jojoba Pearls	hydrogenated jojoba oil	Exfoliant (Optional)	5.00	2.50	0.09

Procedure

Weight phase A ingredients and blend in mortar with pestle until uniform. Add jojoba pearls and blend with a spoon (no pestle). Fill into a jar, or bottle.

Properties

Cleansing powder that converts into an exfoliating cleansing cream once moistened with water. Jojoba beads and vitamin c will exfoliate the skin while milk, oatmeal and provitamin b5 will sooth and moisturize, leaving the skin pampered and fresh. How to use: apply to wet hands then massage over face, or add to a damp flat cotton round and wipe in circular motion all over face.
