Procedure

Phase A: Pre-wet Xanthan Gum and Hyaluronic acid with propanediol, then add to the water phase, while stirring well until hydrated. Add the rest of phase A while stirring, e.g 300-500rpm.

Phase B: Add one ingredient at the time and blend well.

pH: 6.3

Properties

A lightweight, hydrating serum that brightens and may help reduce the appearance of aging skin. Contains Coenzyme Q10 and hyaluronic acid. Neroli hydrosol soothes, while antioxidants defend against environmental stressors for a radiant, healthy glow. Suitable for all skin types.
