ABOUT US

MakingCosmetics Inc. was founded in 1997 and we specialize in ingredients for making makeup, conditioner, lotion, and other personal care products and color cosmetics. We are proud to be one of the very first companies in the United States that has established itself as a leading retail supplier of cosmetic ingredients for businesses and individuals.

We are a FDA-registered, ISO certified, and OTC-licensed cGMP/FDA ingredient supplier. We offer a wide range of cosmetic and makeup ingredients, raw materials, and tools for manufacturing personal care products, and color cosmetics.

We are committed to providing you as many raw materials as possible derived from truly natural, GMO-free, and sustainable sources allowing you to create pure natural products that are commercially not available.

Emollients

Emollients include a large variety of compounds with softening and smoothing properties. As compared to plant oils, specialty emollients are resistant to oxidation and can therefore not spoil and need no antioxidants for preservation.

In addition, most specialty emollients show very good spreadability on the skin and provide a satiny, smooth and non-greasy feel to the skin. Typically, they are non-comedogenic, non-allergic and non-irritant.

Avocado Butter

Item No. BUT-AVCO-01

Natural avocado seed oil extracted from the flesh of the avocado fruit, combined with soybean lipids and beeswax to a creamy texture.

CAS: 8024-32-6, 8012-89-3

INCI NAME: Persea Gratissima (avocado) oil, glycine soja (soybean) lipids, beeswax

Benefits:

- High-quality emollient and moisturizer
- Natural antioxidant properties
- Has soothing and anti-irritant properties.

Applications: Creams, lotions, pomades, lip balms, lipsticks, hair pomades, makeup products, conditioners.

Cocoa Butter Deodorized, USDA Certified Organic

Item No. BUT-CACO-01

Organic, natural fat from the seeds of the fruit of the Cacao tree (grows in tropical regions), rich in oleic, stearic & palmitic fatty acids, contains also flavors (e.g. vanillic acid), sterols, tannins & pigments.

CAS: 8002-31-2

INCI NAME: Organic Theobroma cacao (cocoa butter)

Benefits:

- High-quality skin softener, emollient and conditioner
- Used as film forming agent, non-gelling thickener, and moisturizer in various applications
- Effective emulsion stabilizer

Applications: Creams, lotions, pomades, balms, ointments, makeup products, conditioners.

Cocoa Butter Wafers Deodorized, USDA Certified Organic

Item No. BUT-CACO-02

Organic, natural fat from the seeds of the fruit of the Cacao tree (grows in tropical regions), rich in oleic, stearic & palmitic fatty acids, contains also flavors (e.g. vanillic acid), sterols, tannins and pigments.

CAS: 8002-31-2

INCI NAME: Organic Theobroma cacao (cocoa butter)

Benefits:

- High-quality skin softener, emollient and conditioner
- Used as film forming agent, non-gelling thickener, and moisturizer in various applications.
- Good emulsion stabilizer

Applications: Creams, lotions, pomades, balms, nourishing creams, ointments, makeup products, conditioners.

Green Tea Butter

Item No. BUT-GRTEA-01-1000

Hydrogenated vegetable oils blended with finely ground matcha green tea leaves resulting in a buttery soft consistency.

CAS: 8007-69-0, 84650-60-2

INCI NAME: Prunus Amygdalus Dulcis (sweet Almond) oil, hydrogenated vegetable oil, Camellia Sinensis (tea plant) leaf powder

Benefits:

- Rich in polyphenols, epigallocatechin gallate (EGCg) & xanthines (caffeine and theobromine)
- Natural anti-irritant and moisturizing agent often used as add-on ingredient in anti-wrinkle and anti-aging applications.

Applications: Lotions, creams, butters, sun care & after sun products (1-10%), hair care (1-5%), ointments and balms 4-100%.

Mango Butter

Item No. BUT-MANGO-02-100

Butter obtained from the kernels of mango fruits (*Mangifera Indica*). It is refined, bleached and deodorized to obtain a product which meets the requirements for cosmetic applications. It contains high contents of C18:0 and C18:1 fatty acids and has a high oxidative stability.

CAS: 90063-86-8

INCI NAME: *Mangifera Indica* (mango) seed butter

Benefits:

- Highly effective emollient and skin nutrient due to its unique softening properties and the high level of non-saponifiables
- Ideal for dry, damaged and aging skin

Applications: Skin creams, hair masks, mature skin products, lip care, body butters.

Mango Butter, USDA Certified Organic

Item No. BUT-MANGO-01

Butter obtained from the kernels of mango fruits (*Mangifera Indica*). It is refined, bleached and deodorized to obtain a product which meets the requirements for cosmetic applications.

CAS: 90063-86-8

INCI NAME: Organic *Mangifera Indica* (mango) seed butter

Benefits:

- Highly effective emollient and skin nutrient due to its unique softening properties and the high level of non-saponifiables
- Ideal for dry, damaged and aging skin

Applications: Skin creams, hair masks, mature skin products, lip care, body butters.

Murumuru Butter

Item No. BUT-MURU-01-1000

Murumuru butter is the fatty part collected from the seeds of the Murumuru palm tree (*Astrocaryum murumuru*), native in Brazil.

CAS: 356065-49-1

INCI NAME: *Astrocaryum Murumuru* (murumuru) butter

Benefits:

- Effective emollient with great moisturizing and smoothing properties. Improve skin elasticity.
- No tacky or greasy feel on the skin.
- Very useful in hair formulas due to its naturally glossy appearance and emollient repair effect.

Applications: Lotions, creams, hair care products, sun care & after sun products, lip balms, body butter, ointments.

Orange Peel Butter

Item No. BUT-ORAN-01

Contains orange peel oil and orange peel wax (cold-pressed) together with almond oil and vegetable oils. Natural fragrant butter that adds moisturizing and antioxidant properties to skin care products.

CAS: 8007-69-0, 8008-57-9

INCI NAME: *Prunus Amygdalus Dulcis* (sweet almond) oil, *Citrus Aurantium Dulcis* (orange) peel oil, *Citrus Aurantium Dulcis* (orange) peel wax, hydrogenated vegetable oil

Benefits:

- Effective emollient shown to have moisturizing and antioxidant properties

Applications: Lotions, creams, sun care & after sun products, moisturizers, body butter and hair care, ointments.

Raspberry Butter

Item No. BUT-RASPB-01

Rich smooth and elegant butter, made with Raspberry Seed Oil.

CAS: 5333-62-6, 8012-89-3, 381718-28-1

INCI NAME: *Octyl Dodecanol*, Beeswax, *Rubus Idaeus* (Raspberry) Seed Oil

Benefits:

- High-quality emollient and moisturizer
- Natural antioxidant properties
- Has soothing and anti-irritant properties.

Applications: Skin creams, lotions, body butters, salves, lip balms, lipsticks, makeup products, conditioners.

Shea Butter, USDA Certified Organic

Item No. BUT-SHEA-01-100

Plant fat of the nuts of the African Karite tree (ambuk butter).

CAS: 91080-23-8

INCI NAME: Organic Butyrospermum parkii (shea) butter

Benefits:

- Contains allantoin, vitamin A and E, and various cinnamic and unsaponifiable lipids (e.g. stearic and oleic acids)
- Potent moisturizer and emollient providing effective skin protection against environmental stress factors
- Has anti-irritant and soothing properties and improves the appearance of aging skin

Applications: Lotions, creams, sun care & after sun products, facial moisturizers, body butter, ointments.

Shea Butter Glycerides

Item No. BUT-SHEAGLYC-01-100

Emollient and self-emulsifying agent that is completely water-dispersible thereby maintaining all the properties of a natural butter.

CAS: 97488-91-0

INCI NAME: Butyrospermum parkii (shea) butter

Benefits:

- Multi-functional, water-dispersible natural emollient & emulsifier
- Absorbs rapidly without leaving a greasy feel
- Effectively conditions hair

Applications: Body washes, hair shampoos/conditioners, body butters, lotions, creams, ointments, sunscreen products, massage creams.

Natural Oils

Abyssinian Oil

Item No. OIL-ABYSSN-01

Known as crambe oil, abyssinian oil is refined and expeller-pressed from the seeds of the crambe abyssinica plant.

CAS: 68956-68-3

INCI NAME: Crambe Abyssinica (abyssinian) oil

Benefits:

- Non-greasy feel, absorbs almost instantly and leaves behind a soft moisture barrier
- Superior antioxidant properties
- Creates a net-like structure around the hair, keeping cuticles closed and protected while locking the moisture inside the hair

Applications: Hair care products, creams, lotions, makeup, face oils, color cosmetics, skin treatments, hand creams.

Almond Oil

Item No. OIL-ALMD-01

Natural oil pressed from the seeds of the sweet almond tree, contains 62-86% oleic acid, 20-30% linoleic acid & other valuable fatty acids, rich in beta-sitosterol, squalene & vitamin E.

CAS: 8007-69-0

INCI NAME: Prunus amygdalus dulcis (almond) oil

Benefits:

- Effective emollient leaves the skin soft, smooth and conditioned
- Good nourishing and revitalizing effect
- Penetrates and moisturizes the skin very well

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Almond Oil, USDA Certified Organic

Item No. OIL-ALMD-02

Organic oil pressed from the seeds of the sweet almond tree, contains 62-86% oleic acid, 20-30% linoleic acid & other valuable fatty acids, rich in beta-sitosterol, squalene & vitamin E.

CAS: 8007-69-0

INCI NAME: Organic Prunus amygdalus dulcis (almond) oil

Benefits:

- Effective emollient leaves the skin soft, smooth and conditioned
- Good nourishing and revitalizing effect
- Penetrates and moisturizes the skin very well

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Amla Oil, USDA Certified Organic

Item No. OIL-AMLA-01

Known also as Indian gooseberry oil, amla oil is cold-pressed extracted from the seed of the Emblica officinalis plant. Unrefined. Rich in antioxidants including flavonoids and polyphenols. Widely used in Ayurveda medicine.

CAS: 90028-28-7

INCI NAME: Organic Emblica Officinalis (amla) oil

Benefits:

- Used in anti-aging products due to its antioxidant properties
- Has good moisturizing and water-retaining properties
- Absorbs well into skin

Applications: Hair care products, creams, lotions, makeup, face oils, color cosmetics, skin treatments, hand creams.

Apricot Kernel Oil

Item No. OIL-APRIC-01

Light carrier oil made from the dried kernels of apricots. Has similar properties as almond oil. 100% pure. Rich in vitamin A & E and oleic & linoleic fatty acids. SAP Value: 180-200.

CAS: 72869-69-3

INCI NAME: Prunus Armeniaca (apricot) kernel oil

Benefits:

- Excellent carrier oil for all kinds of skin care products and color cosmetics
- Has good moisturizing and water-retaining properties

Applications: Creams, lotions, makeup, face oils, color cosmetics, conditioners, skin treatments, hand creams.

Argan Oil, USDA Certified Organic

Item No. OIL-ARGA-01

Natural oil obtained from Argania spinosa (L.), an endemic tree of southwest Morocco, 100% pure, virgin and cold pressed.

CAS: 223747-87-3

INCI NAME: Organic Argania Spinosa (argan) kernel oil

Benefits:

- Valuable natural emollient with excellent nutritional benefits for skin and hair
- Has high content of unsaturated fatty acids, phenols and carotens

Applications: Creams, serums, lotions, hair care products, sun care, lip care products.

Avocado Oil

Item No. OIL-AVOC-01

Natural, 100% virgin avocado oil, refined & expeller pressed. Penetrates skin easily and moisturizes well.

CAS: 8024-32-6

INCI NAME: Persea Gratissima (avocado) oil

Benefits:

- Nourishing oil for skin and hair care
- Particularly high content of vitamins A, B, D and E and essential fatty acids
- Moisturizes and softens skin and hair

Applications: Creams, serums, lotions, hair care products, sun care, lip care products.

Baobab Oil, USDA Certified Organic

Item No. OIL-BAOB-02-125

Organic Baobab Oil is from the large Baobab fruits produced by the Adansonia digitata trees native to Africa. Also called the super fruit due to its richness in omega-3, antioxidants & vitamin A, D and C. Mostly used in premium skin moisturizers, lip balms & anti-wrinkle products. Cold pressed, unrefined.

CAS: 225233-93

INCI NAME: Organic Adansonia Digitata (baobab) oil

Benefits:

- Rich, premium emollient for skin and hair care use due to its content of vitamins and omega fatty acids
- Helps soothing dry and itchy skin

Applications: Lotions & creams, face oils, massage oils, products for dry skin & hair conditioners.

Camelina Oil

Item No. OIL-CAML-01

Natural 100% virgin camelina oil. Unrefined and not deodorized. Mild oil that contains over 50% polyunsaturated fatty acids (35-45% omega 3, 15-20% omega 6, 30% omega)

CAS: 68956-68-3

INCI NAME: Camelina sativa seed (camelina) oil

Benefits:

- Very nourishing plant oil with natural vitamin E
- Helps keep the skin elastic, moisturized and protected
- Great ingredient to add nourishing properties for skin and hair products

Applications: Creams, lotions, hair care products, sun care, lip care products.

Carrot Oil & Beta-Carotene

Item No. OIL-CARROT-01

Blend of sunflower seed oil, carrot seed oil, and carrot extract enriched with beta-carotene and vitamin C.

CAS: 8001-21-6, 84929-61-3, 8015-88-1, 84929-61-3, 7235-40-7, 137-66-6

INCI NAME: Helianthus Annuus (sunflower) seed oil, Daucus Carota Sativa (carrot) root extract, Daucus Carota Sativa (carrot) seed oil, beta-carotene, ascorbyl palmitate

Benefits:

- Both carrot and sunflower oil contain fatty acids which have important actions on skin elasticity, restoration and regeneration
- Suitable to be formulated into any kind of skin and hair product

Applications: Creams and lotions, serums, face oils, hair care products.

Castor Oil, USP

Item No. OIL-CAST-01

USP grade, natural vegetable oil derived from the seeds of the herbaceous plant castor, consisting of triglycerides of different fatty acids (90% ricinoleic acid, 3-4% oleic acid, 3-4% linoleic acid).

CAS: 8001-79-4

INCI NAME: Ricinus communis (castor) oil

Benefits:

- Excellent emollient leaving the skin soft and smooth
- Good hair conditioner making the hair looked nourished and shiny
- Widely used as moisturizer and lubricant in lip care products to add shine and luster

Applications: Creams, lotions, hair care products, sun care, lip care products.

Coconut Oil

Item No. OIL-COCO-01

Natural whole coconut oil, not fractionated, obtained by expression from the kernels of the seeds of *Cocos nucifera*.

CAS: 8001-31-8

INCI NAME: Cocos nucifera (coconut) oil

Benefits:

- Precious emollient leaving the skin and hair soft, smooth and conditioned
- Lubricant for massage oils

Applications: Creams, lotions, soaps, shampoos, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Coconut Oil, USDA Certified Organic

Item No. OIL-COCO-02

Extra virgin (unrefined), cold-pressed USDA certified organic coconut oil is extracted from the meat of the coconut.

CAS: 8001-31-8

INCI NAME: Organic Cocos nucifera (coconut) oil

Benefits:

- Precious emollient leaving the skin and hair soft, smooth and conditioned
- Lubricant for massage oils
- Due to its high content of saturated fatty acids extra virgin organic coconut oil is highly resistant to rancidity

Applications: Creams, lotions, soaps, shampoos, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Cranberry Seed Oil

Item No. OIL-CRNBE-01

Natural oil pressed from the seeds of cranberries. Cold pressed, unrefined and cold filtered

CAS: 68956-68-6

INCI NAME: Vaccinium Macrocarpon (cranberry) seed oil

Benefits:

- Unique oil due to its balanced content of omega-3, 6, and 9 essential fatty acids
- Rich in vitamin A, tocopherols, tocotrienols, phytosterols and phospholipids
- Natural emollient that imparts a softening and moisturizing feel

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Grape Seed Oil

Item No. OIL-GRAP-01-125

Natural oil pressed from the seeds of grapes (cold pressed), contains 60-76% linoleic acid, 12-25% oleic acid, 6-9% palmitic acid and 3-6% stearic acid, rich in various vitamins including vitamin A, D and E.

CAS: 8024-22-4

INCI NAME: Vitus vinifera (grape) seed oil

Benefits:

- Effective, non-greasy emollient with good skin absorption
- Leaves the skin soft, smooth and conditioned
- Has a mild toning effect

Applications: Creams, lotions, creams for impure skin, skin toners, bath & massage oils, anti-aging products, hair care products, makeup products.

Hemp Seed Oil

Item No. OIL-HEMP-01-125

Natural oil pressed from the seeds of the hemp (cannabis sativa) plant.

CAS: 68956-68-3

INCI NAME: Cannabis Sativa (hemp) seed oil

Benefits:

- Effective emollient and nourishing ingredient
- Gives a rich skin feel
- Is beneficial for irritated and dry skin

Applications: Creams, lotions, makeup & sun care products, ointments, bath oils, personal & baby care products.

Joboba Oil, USDA Certified Organic

Item No. OIL-JOJO-02-125

Organic pure liquid wax (not an oil as such) derived from the seeds of a plant (*simmondsia chinensis*) growing in the Sonora desert in the USA.

CAS: 61789-91-1

INCI NAME: Organic *Simmondsia Chinensis* (jojoba) seed oil

Benefits:

- Precious moisturizer and emollient
- Prevents transdermal water loss and retains moisture
- Good lubricant without leaving a greasy film on the skin as it penetrates into the skin

Applications: Lotions, creams, nourishing skin & hair care products, body washes, shampoos, baby products, sun care & after sun products, makeup products, bath oils, facial rinses, hair rinses.

Macadamia Nut Oil

Item No. OIL-MACA-01-125

Natural oil pressed from the nut meat of the macadamia tree (*macadamia ternifolia*), contains 60% oleic acid, 18% palmitoleic acid, 27% linoleic acid, 3% omega-3 and omega-6.

CAS: 128497-20-1

INCI NAME: *Macadamia Integrifolia* (macadamia) oil

Benefits:

- Effective emollient and fragrance fixative
- Gives a rich skin feel and is especially suited for heavy creams and sun care products

Applications: Creams, lotions, makeup & sun care products, ointments, bath oils, personal & baby care products.

Meadowfoam Seed Oil

Item No. OIL-MDFS-02-125

Vegetable derived lipids & sterols from meadowfoam seed oil (*limnanthes alba*)

CAS: 153065-40-8

INCI NAME: *Limnanthes Alba* (Meadowfoam) seed oil

Benefits:

- Extremely high oxidative stability making it one of the most stable plant oils
- Gives non-greasy feel
- Good pigment wetting properties in color cosmetics

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Oat Emollient

Item No. OIL-OATEMOL-01

Natural oily lipid complex cold-pressed from oat kernels.

CAS: 84012-26-0

INCI NAME: Avena Sativa (oat) kernel oil

Benefits:

- Outstanding skin absorbancy resulting in a non-greasy feeling
- Non-comedogenic oil showing reduced occurrence of papules, blackheads and lesions
- Acts as an occlusive and a humectant due to the high ceramide content

Applications: Creams, lotions, ointments, bath oils, hair care & sun care products, baby care products.

Red Raspberry Seed Oil

Item No. OIL-RASPS-01

Excellent light, natural oil from the kernels of red raspberries. Cold-pressed (expeller-pressed) which optimizes the phytochemical content. This variety of red raspberry has by far the highest ellagitannin (polyphenol) content of all red raspberry cultivars.

CAS: 381718-28-1

INCI NAME: Rubus idaeus (raspberry) seed oil

Benefits:

- Effective emollient leaves the skin soft, smooth and conditioned
- Good nourishing and revitalizing effect as it penetrates the skin
- Has moisturizing and water-retaining properties

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, and personal & baby care products.

Repair VITA Oil

Item No. OIL-REPVITA-01-5000

Nourishing blend of special selected oils combined with three different plant extracts.

CAS: 8001-21-6, 438545-25-6, 8001-31-8, 10191-41-0, 84604-14-8

INCI NAME: Helianthus Annuus (sunflower) seed oil, Macadamia Ternifolia (gympe nut) seed oil, Chenopodium Quinoa (quinoa) seed extract, Cocos Nucifera (coconut) oil, Gardenia Taitensis (gardenia) flower extract, Rosmarinus Officinalis (rosemary) leaf extract, tocopherol

Benefits:

- Moisturizes and repairs stressed and damaged hair
- Revitalizes tired and sagging skin

Applications: Hair conditioning, hair masks, hair fluids, anti-hair loss, skin barrier repair, antioxidant protection, anti-aging serums.

Rose Hip Oil

Item No. OIL-ROHP-01

Natural oil extracted from the seeds of the rose hip or wildrose. High in linoleic & linolenic essential fatty acids which are key components of epidermal skin cells. Expeller-pressed, refined.

CAS: 84603-93-0

INCI NAME: Rosa Canina (rose hip) seed oil

Benefits:

- Premium emollient and moisturizer, leaves the skin soft, smooth and hydrated
- Has been shown to improve the appearance of aging skin
- Ideal for distressed and/or sensitive skin

Applications: Creams, lotions, protecting creams, ointments, bath oils, makeup & sun care products, personal & baby care products.

Sesame Seed Oil, USDA Certified Organic

Item No. OIL-SESA-01

Organic, unrefined sesame seed oil (sesamum indicum) is a very stable oil with a long shelf life. Contains naturally vitamin A and E. Expeller pressed.

CAS: 8008-74-0

INCI NAME: Organic Sesamum Indicum (sesame) seed oil

Benefits:

- Excellent emollient, good nourishing and moisturizing properties
- Great carrier oil for various formulations
- Ideal for blemished and impure skin

Applications: Creams, lotions, toners, bath & massage oils, anti-aging products, hair care products, makeup products.

Squalane Light

Item No. ELL-SQUAL-02

100% plant-based emollient (synonym: hemisqualane) derived from plant sugars (sugar cane) that is a perfect alternative for petroleum-based paraffins and silicone ingredients.

CAS: 3891-98-3 (or also 64741-76-0)

INCI NAME: Hydrogenated farnesene or C13-15 alkane

Benefits:

- NPA certified (The Natural Seal)
- Creates elegant and light textures with a non-tacky, non-greasy and silky finish
- High spreadability

Applications: All kinds of skin care products, hair conditioners, lip balms, lip sticks, makeup.

Squalane

Item No. ELL-SQUAL-01

100% plant-based emollient derived from plant sugars (sugar cane). **CAS:** 0111-01-03
INCI NAME: Squalane

Benefits:

- Highly moisturizing emollient that has high resistance to oxidation and high affinity to skin and its natural lipids
- Excellent skin-penetrating qualities
- Medium spreading qualities

Applications: Skin creams, lotions, hair care, massage oils, makeup products and lip care.

Sunflower Oil, USDA Certified Organic

Item No. OIL-SUNFL-01

Organic pure natural oil derived from the seeds of sunflowers. High oleic form as it contains as high amount of oleic acids which make the oil more stable and resistant to oxidation. Cold-expressed, rich in the vitamin E, oleic acids, and low in saturated fat.

CAS: 8001-21-6

INCI NAME: Organic Helianthus Annuus (sunflower seed) oil

Benefits:

- Effective humectant, nutrient and emollient for the skin
- Nourishes and softens skin and hair
- Very good lubricant

Applications: Lotions, creams, nourishing skin & hair care products, body washes, shampoos, baby products, sun care & after sun products, bath oils, lip care products.

Silicones

Amodimethicone

Item No. ELL-AMDI-01

Milky, white silicone emulsion (amino-modified polydimethylsiloxane emulsion) offering excellent conditioning & softening properties.

CAS: 68554-54-1, 24938-91-5, 112-02-7

INCI NAME: Amodimethicone, trideceth-12, cetrimonium chloride

Benefits:

- Partial water dispersible silicone emulsion for use in hair conditioners, hair spritzes and styling products
- Protects the hair shaft, moisturizes hair, gives softness and shine
- Adds a silky feel to skin care creams and reduces greasiness

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions.

Cyclomethicone

Item No. ELL-CYCLM-01

100% active cyclic silicone polymer blend consisting of siloxane D4 (cyclotetrasiloxane) and siloxane D5 (cyclopentasiloxane).

CAS: 556-67-2, 541-02-6

INCI NAME: Cyclotetrasiloxane, cyclopentasiloxane

Benefits:

- Rapidly evaporates without cooling the skin. Leaves the skin dry, smooth and silky
- Ideal carrier for makeup, other color cosmetic skin creams, deodorants and stick products without the oily feel
- Provides excellent stability and aesthetics

Applications: Color cosmetics, creams, deodorants, sticks, hair care products.

Dimethicone Fluid

Item No. ELL-DIMT-02

Dimethicone Fluid is a 100% active linear silicone polymer with a viscosity of only 10 cps.

CAS: 63148-62-9

INCI NAME: Dimethicone

Benefits:

- Used for its low viscosity in various liquid, low-viscous skin and hair care products
- Will take out the whitening of creams and lotions when rubbed into the skin
- Gives a non-greasy, dry feel

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions, but also color cosmetics. Skin protectant products.

Dimethicone Satin

Item No. ELL-DIMSAT-01

Mixture of low and high molecular weight linear silicones. Linear silicones are large polymers (polydimethylsiloxanes) and usually are viscous and more oil-like.

CAS: 9006-65-9, 63148-62-9

INCI NAME: Dimethicone

Benefits:

- Has a different feel than ordinary dimethicones as it provides more cushion, greater slip, with a satiny after-feel
- Takes out tackiness of products and is greatly moisturizing
- Provides luxurious skin feels for creams and lotions

Applications: Creams, lotions, hair care products, shower gels, sun care, makeup, massage treatments.

Iso-Dimethicone Copolymer

Item No. ELL-ISDICO-01

Non-crosslinked, non-alkyl containing silicone polymer blended with the hydrocarbon emollient isododecane.

CAS: 141-70-5, 13475-82-6, 156065-02-0

INCI NAME: Isododecane, Bis vinyl dimethicone/dimethicone copolymer

Benefits:

- Reduces tackiness and greasiness of skin care products
- Gives matte and powdered after-feel to the skin
- Designed to enhance the texture, gloss and film integrity of formulations

Applications: Color cosmetics, skin & hair care, serums, lotions & creams.

Dimethicone 500

Item No. ELL-DIMT-01

Dimethicone 500 is a 100% active linear silicone polymer with a viscosity of 500 cps.

CAS: 9006-65-9

INCI NAME: Dimethicone

Benefits:

- Used for its chemical stability in anti-foams, color cosmetics and hair care products
- Takes out the whitening of creams and lotions when rubbed into the skin and gives a non-greasy, dry feel

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions, but also color cosmetics (e.g. lipsticks, lip balms, makeup). Skin protectant products.

PEG-8 Dimethicone

Item No. ELL-PEG8DI-01

PEG-8 Dimethicone is a water-soluble nonionic dimethicone copolyol. HLB 10. Molecular weight 5500Da

CAS: 68937-54-2

INCI NAME: PEG-8 dimethicone

Benefits:

- Improves skin feel
- Detackifies ingredients in formulas
- Adds additional moisturization to surfactant systems (shampoos, cleansers, shower gels) due to emollient properties

Applications: Creams, lotions, hair care products, shower gels, sun care, makeup.

Polymethylsilsesquioxane

Item No. ELL-POLYMETSILSESQ-01

High-performing spherical silicone powder providing enhanced aesthetics and wrinkle-masking effects. It creates a non-thickening effect, has excellent water-repellency and flows freely without agglomeration, providing superior handling and processing ease.

CAS: 68554-70-1

INCI NAME: Polymethylsilsesquioxane

Benefits:

- Gives skin a smooth, silky, powdery feeling
- Effectively absorbs sebum
- Enhances water repellency

Applications: Creams, foundations, lipsticks, eye shadows, eyeliners, mascara and powder products.

Silicone Gel

Item No. ELL-CYCDIMVIN-01

Silicone gel is a non-emulsifying elastomer gel made of an organosiloxane polymer dispersed in cyclopentasiloxane.

CAS: 541-02-6, 556-67-2

INCI NAME: Cyclopentasiloxane, dimethicone/vinyltrimethylsiloxysilicate crosspolymer

Benefits:

- Easily spreadable on skin and gives a nice, non-greasy, silky skin feel
- Thick emollient that adds viscosity and substance to creams
- Leaves a non-tacky film on the skin and improves water resistance of formulations

Applications: Creams, lotions, sunscreen, makeup, lipsticks, hair care.

Silicone Resin

Item No. ELL-TRIPOL-01

Unique combination of silicone resins especially developed to provide excellent transfer and wash-off resistance combined with a flexible film for long-lasting, long-wearing, smudge-proof cosmetic products.

CAS: 56275-01-5, 115341-02-1

INCI NAME: Trimethylsiloxysilicate, polypropyl silsesquioxane

Benefits:

- Excellent film former for long-lasting, rub-off resistant and long-wearing permeable films
- Improves color intensity and shine
- Enhances the SPF wash-off resistance in sunscreens

Applications: Sunscreens, makeup, foundation, lipsticks, color cosmetics that need wash-off & rub-off resistance.

Vitamin C in Silicone (20% L-ascorbic acid)

Item No. VIT-VITCSIL-01

Active form of vitamin C stabilized in an elastomer dispersion. Contains 20% pure l-ascorbic acid providing all the antioxidant and anti-aging benefits in an easy-to-use blend.

CAS: 541-02-6, 50-81-7, 62624-30-0, 63394-02-5, 156065-02-0, 29383-26-4, 29710-25-6

INCI NAME: Cyclopentasiloxane, l-ascorbic acid, polysilicone-11, ethylhexyl hydroxystearate

Benefits:

- Can improve appearance of aged and fragile skin
- Widely used as add-on ingredient in skin-lightening products to correct hyperpigmentation and age spots

Applications: Serums, lotions, sun care & after sun products, sticks & makeup.

Specialty Emollients

Dimethicone & Polysilicone-11

Item No. ELL-DIMEPOLY-01

Non-volatile elastomer dispersion in dimethicone. Provides enhanced aesthetics to formulations, and results in a matte appearance with a powdery after feel. Globally approved.

CAS: Dimethicone, polysilicone-11

INCI NAME: Dimethicone/vinyl dimethicone crosspolymer, silica

Benefits:

- Non-volatile elastomer for enhanced aesthetics
- Matte appearance
- Powdery after feel

Applications: Skin care products, color cosmetics (especially foundations and lipsticks), sun care products, and hair care products.

C12-15 Alkyl Benzoate

Item No. ELL-ALBZ-01

C12-15 alkyl benzoate is a low-molecular weight ester of benzoic acid and C12-15 alcohols.

CAS: 68411-27-8

INCI NAME: C12-15 alkyl benzoate

Benefits:

- Versatile emollient ester suitable for use in skin care, sun care and color cosmetics
- Can be used to improve feel, softness and many other textural aspects
- Offers excellent emolliency with added pigment-dispersing capabilities

Applications: Lotions, creams, sun products, color cosmetics.

Cetyl Palmitate

Item No. ELL-CEPA-01

Pure vegetable lipid ester derived from cetyl alcohol & palmitic acid (naturally occurring fatty acid).

CAS: 540-10-3

INCI NAME: Cetyl palmitate

Benefits:

- Great skin-conditioning and emollient ingredient
- Used as occlusive and masking ingredient
- Enhances emulsion stability

Applications: Color cosmetics (e.g. lipsticks), hair care, lotions, creams, moisturizers, cleansers, deodorant sticks, sunscreens.

Dimethicone 500

Item No. ELL-DIMT-01

Dimethicone 500 is a 100% active linear silicone polymer with a viscosity of 500 cps.

CAS: 63148-62-9

INCI NAME: Dimethicone

Benefits:

- Used for its chemical stability in anti-foams, color cosmetics and hair care products
- Takes out the whitening of creams and lotions when rubbed into the skin and gives a non-greasy, dry feel
- Improves wet and dry combing, gives softness and silky gloss in hair care products

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions, but also color cosmetics (e.g. lipsticks, lip balms, makeup). Skin protectant products.

Iso-Dimethicone Copolymer

Item No. ELL-ISDICO-01

Non-crosslinked, non-alkyl containing silicone polymer blended with the hydrocarbon emollient isododecane.

CAS: 141-70-5, 13475-82-6, 156065-02-0

INCI NAME: Isododecane, Bis vinyl dimethicone/dimethicone copolymer

Benefits:

- Reduces tackiness and greasiness of skin care products
- Gives matte and powdered after-feel to the skin
- Designed to enhance the texture, gloss and film integrity of formulations

IsoLanolin

Item No. ELL-ISLAN-01

Low viscosity esterified lanolin sterol that contains hydrophobic esterified lanolin sterol but also hydrophilic non-esterified sterols.

CAS: 142-91-6, 8038-43-5, 70321-63-0

INCI NAME: Isopropyl palmitate, lanolin oil

Benefits:

- Excellent emollient
- Has surfactant properties that help stabilize both water-in-oil and oil-in-water emulsions
- Very useful for wetting pigments

Applications: Creams, lotions, hair care, sun care, lip care and makeup, pressed powders.

Isododecane

Item No. ELL-ISOD-01

Hydrocarbon that is most often used as an emollient and solvent in skin care products.

CAS: 31807-55-3

INCI NAME: Isododecane

Benefits:

- Has a weightless feel on skin and enhances spreadability of products due to its low viscosity and density
- Helps prevent evaporation of water from the skin
- Excellent emollient that can be used as replacement to oils in emulsions

Applications: Mascara, eyeliner, creams, lotions, hair care, conditioners, hairsprays, perfumes.

Isoeicosane

Item No. ELL-ISOE-01

Non-volatile hydrocarbon emollient consisting of a mixture of highly branched C20 isoparaffin hydrocarbons. Satiny texture & feel.

CAS: 52845-07-5, 93685-79-1

INCI NAME: Isoeicosane

Benefits:

- Suitable replacement for mineral oil in "oil-free" products
- Has very good spreadability
- Provides a satiny feel to the skin and is non-comedogenic

Applications: All kinds of skin care, hair care & sun care products, various color cosmetics.

1382 - Green Tea Cuticle Salve

Weight: 50.00g

Ingredient	INCI	Function	Percent	Wgt (g)	Wgt (oz)
Phase A					
Isopropyl Myristate	Isopropyl Myristate	Emollient	29.50	14.75	0.52
Hemp Seed Oil	Cannabis Sativa (hemp) seed oil	Emollient	20.00	10.00	0.35
Joboba Oil, Organic	Organic Simmondsia Chinensis (jojoba) seed oil	Emollient	20.00	10.00	0.35
Green Tea Butter	Prunus Amygdalus Dulcis (sweet Almond) oil, hydrogenated vegetable oil, Camellia Sinensis (tea plant) leaf powder	Thickener	7.00	3.50	0.12
Stearyl Palmitate	Stearyl Palmitate	Thickener	5.00	2.50	0.09
Castor Lip Base	Ricinus communis (castor) seed oil, hydrogenated castor oil, copernicia cerifera (carnauba) wax	Thickener	8.00	4.00	0.14
Lanolin Alcohol	Lanolin Alcohol	Emulsifier, Thickener	6.00	3.00	0.11
Lecithin	Lecithin	Emulsifier	1.50	0.75	0.03
Natural Bisabolol	Natural Bisabolol	Soothing	1.00	0.50	0.02
Phase B					
Fragrance Neroli	Fragrance	Fragrance	1.00	0.50	0.02
Vitamin E Acetate	Tocopheryl acetate	Antioxidant	0.50	0.25	0.01
Vitamin E Tocopherol	Tocopherol	Antioxidant	0.50	0.25	0.01

Procedure

Phase A: Combine ingredients in a heat-resistant beaker. Heat to 75 - 80 C to melt all the ingredients. Remove from heat and cool slightly.

Phase B: Add and blend well, pour hot into small pots. Cool.

Properties

This lightweight balm uses Green Tea Butter, Hemp and Jojoba Oil to soothe dry, cracked, dehydrated cuticles and Vitamin E to revitalize the skin. It's lightweight enough to soak into the skin within seconds, yet nourishing enough to help restore skin.

Isopropyl Myristate

Item No. ELL-ISOMYR-01

Ester of isopropyl alcohol and myristic acid (vegetable-derived). Low viscosity fluid non-greasy emollient, tolerates wide pH range, compatible with most surfactants.

CAS: 110-27-0

INCI NAME: Isopropyl myristate

Benefits:

- Superior emollient for non-greasy bath, body and baby oils
- Lubricant and compression aid for pressed powders
- Light & non-tacky emollient for creams and lotions. Readily adsorbed by the skin

Applications: Creams, lotions, hand creams, shampoo, shower gels, makeup removers, powders and foundations.

Mineral Oil, USP

Item No. ELL-MIOL-01

Liquid mixture of hydrocarbons obtained from petroleum.

CAS: 8012-95-1, 8020-83-5, 8042-47-5

INCI NAME: Mineral oil (Paraffinum Liquidum)

Benefits:

- Effective emollient with a great skin feel
- Easy to use and suitable for all kinds of cosmetic products including skin care, sun care, bath products, hair care to color cosmetics
- Is non-comedogenic.

Applications: All kinds of skin care, hair care & sun care products, various color cosmetics. Skin protectant products.

Octyldodecanol

Item No. ELL-OCDO-01

Octyldodecanol (Synonym: 2-octyl dodecanol) is a clear, odorless fatty alcohol with excellent solvent properties.

CAS: 5333-42-6

INCI NAME: Octyldodecanol

Benefits:

- Emollient, solvent, and moisturizer for all kinds of skin care products
- Provides the skin a soft, smooth appearance
- Ideal solvent to dissolve salicylic acid

Applications: All kinds of skin care, sun care products, various color cosmetics.

PEG-8 Dimethicone

Item No. ELL-PEG8DI-01

PEG-8 Dimethicone is a water soluble nonionic dimethicone copolyol. HLB 10. Molecular weight 5500Da

CAS: 68937-54-2

INCI NAME: PEG-8 dimethicone

Benefits:

- Improves skin feel
- Detackifies ingredients in formulas
- Adds additional moisturization to surfactant systems (shampoos, cleansers, shower gels) due to emolliency properties

Applications: Creams, lotions, hair care products, shower gels, sun care, makeup.

Petroleum Jelly (Petrolatum), USP

Item No. ELL-PETRJL-01

100% pure petroleum jelly (petrolatum), semi-solid mixture of hydrocarbons obtained from petroleum. Does not oxidize on air exposure. Melting point >100°F (>37°C)

CAS : 8009-03-08

INCI NAME: Petrolatum

Benefits:

- Excellent emollient, moisturizer & lubricant
- Enhances consistency and viscosity (e.g. ideal bodifying agent for lip care products)
- Protects skin from wind, burn and chapping

Applications: Lipsticks, lip balms, creams, lotions, hair pomades.

Polyisobutene 250

Item No. ELL-POLIS-01

Low-viscosity (Average MW 250 D) nonpolar polymer oil (liquid isoparaffin, propane-2-methyl- homopolymer), mineral oil substitute.

CAS: 68937-10-0

INCI NAME: Hydrogenated polyisobutene

Benefits:

- Excellent emollient and moisturizer, restores skin suppleness, and prevents water loss (waterproofing agent)
- Easily emulsifiable
- Pigment dispersing agent for color cosmetics

Applications: Hydrating creams, after shave balms, antiperspirants, color cosmetics, creams for blemished and impure skin, hair grooms, sunscreen products, lipsticks, hair relaxers, baby care, cleansing creams, shaving gels.

Polyisobutene 1200

Item No. ELL-POLIS-03

High-molecular weight (Average MW 1,200 D) nonpolar polymer oil (synonym: hydrogenated butene homopolymer). Great mineral oil substitute.

CAS: 68937-10-0

INCI NAME: Hydrogenated polyisobutene

Benefits:

- Emollient & moisturizer (especially where viscosity is needed as e.g. lip gloss)
- Repairs skin suppleness, prevents water loss
- Easily emulsifiable

Applications: Hydrating & cleansing creams, color cosmetics (e.g. lipsticks), deodorants, sunscreen products, creams for blemished and impure skin, baby care products, hair relaxers, shaving gels.

Squalane

Item No. ELL-SQUAL-01

100% plant-based emollient derived from plant sugars (sugar cane). Squalane occurs naturally in the lipidic layers of the skin and prevents moisture loss while restoring the skin's suppleness and flexibility.

CAS: 0111-01-03

INCI NAME: Squalane

Benefits:

- Highly moisturizing emollient that has high resistance to oxidation and high affinity to skin and its natural lipids
- Excellent skin-penetrating qualities
- Medium spreading qualities

Applications: Skin creams, lotions, hair care, massage oils, makeup products and lip care.

Stearyl Palmitate

Item No. ELL-STPA-01

Pure vegetable ester derived from stearyl alcohol & methyl palmitate. Melting point 57oC (135oF). HLB value 10.

CAS: 2598-99-4

INCI NAME: Stearyl palmitate

Benefits:

- Effective thickener with emollient properties
- Provides enhanced whiteness in creams and lotions
- Enhances emulsion stability

Applications: Color cosmetics (incl. lipsticks), hair care, lotions, creams, moisturizers, cleansers, bath oils & scrubs, deodorant sticks, sunscreens.

Sucrose Cocoate

Item No. ELL-SUCO-01

Natural, PEG-free, hydrophilic emollient and moisturizer made of sucrose esters of coconut fatty acid (sugar beets and coconut oil). HLB 15.

CAS: 91031-88-8

INCI NAME: Sucrose cocoate

Benefits:

- Provides pleasant re-fattening and emollient effects
- Effective moisturizer
- Increases foam density, viscosity and mildness of cleansing products

Applications: Hair & body & face cleansing formulations (especially for very mild products), as moisturizer & emollient in creams & lotions.

Triglyceride

Item No. ELL-TRGL-01

Lipid (triesters) composed of glycerin, caprylic & capric fatty acids. It is based on saturated even-numbered, unbranched natural fatty acids of vegetable origin.

CAS: 73398-61-5, 65381-09-1

INCI NAME: Caprylic / capric triglyceride

Benefits:

- Exceptional low-viscosity emollient and lubricant leaving a soft and non-greasy feel on the skin due to its low melting point
- Improves spreading of creams and lotions
- Excellent vehicle and solvent for lipophilic active ingredients and UV filters (improves their effectiveness)

Applications: Widely applicable as emollient for "oil-free products", non-oxidizing fat base & solvent of active ingredients in skin, hair care & makeup products.

Natural Gel-Wax

Item No. ELL-WAGE-01

Very versatile natural wax gel (mixture of oils and waxes), can replace petrolatum in a formulation, being used as natural emollient and thickener for emulsions.

CAS: 8001-79-4, 8012-89-3, 8015-86-9

INCI NAME: Ricinus Communis (castor) seed oil, hydrogenated castor oil, beeswax, Copernicia Cerifera (carnauba) wax

Benefits:

- Excellent viscosity enhancer & emollient
- Perfect for use in lip gloss (in tubes & vials), lotions, creams and pomades
- Great alternative to Petroleum based products

Applications: Creams, lotions, pomades, lip gloss, makeup products.

Caprylyl Glycol EHG

Item No. HUM-CAEHG-01

Blend of caprylyl glycol (67-73%) and ethylhexylglycerin (27-33%). Glycols are known to be antimicrobial and show antimicrobial efficacy against typical germs found in cosmetic formulations.

CAS: 1117-86-8, 70445-33-9

INCI NAME: Caprylyl glycol, ethylhexylglycerin

Benefits:

- Effective humectant and emollient providing unique skin feel
- Has antimicrobial efficacy
- Boosts efficacy of traditional preservatives

Applications: All kinds of leave-on & rinse-off personal care and cosmetic products.

Glycerin, USP

Item No. HUM-GLYC-01

Polyhydric sugar alcohol present in all natural fats, oils and phospholipids, degraded to glucose (sugar) in the body. Does not contain bovine, ovine, caprine or other animal-derived materials of any type. 100% vegan. 100% free of palm oil derivatives.

CAS: 56-81-5

INCI NAME: Glycerin

Benefits:

- Effective humectant and moisturizer attracting water to the intercellular space of the skin
- Protects the lipids of skin cells
- Good solvent for various water-insoluble ingredients

Applications: All kinds of skin care products, hair care products, color cosmetics, soaps (glycerin soap).

Jojoba Gel

Item No. THK-JOGE-01

Anhydrous transparent viscous gel consisting of jojoba oil (Simmondsia chinensis) combined with polymers (ethylene-propylene-styrene copolymer & ethylene-butylene-styrene copolymer)

CAS: 61789-91-1, 66070-58-4, 68648-89-5

INCI NAME: Simmondsia chinensis (jojoba) seed oil, ethylene/propylene/styrene copolymer, butylene/ethylene/styrene copolymer

Benefits:

- Multi-purpose gel thickener and emollient

Applications: All kinds of emulsions (creams, lotions, cleansers, hair creams, makeup foundations), lip care products, massage oils, baby oils.

Polyamide 3

Item No. THK-POLYA-01

Partially vegetable-derived rheology modifier for formulation with low to high polarity organic liquids. High bio-renewable content. Sustainable product, only partially petroleum derived.

CAS: 1093268-29-1

INCI NAME: Polyamide-3

Benefits:

- Can stabilize emulsions over a broad pH range and accommodate high oil and fat loadings including silicones
- Forms gelled oil-in-water and water-in-gelled-oil emulsions that are pH insensitive (gels can be water soluble or insoluble)

Applications: Creams, lotions, sticks, sunscreen, color cosmetics, ethanol gels and sprays.

Methyl Gluceth-10

Item No. ELL-METGL10-01

Natural glucose derivative made as polyethylene glycol ether of methyl glucose.

CAS: 68239-42-9

INCI NAME: Methyl gluceth-10

Benefits:

- Very effective water-retention properties that help prevent water-loss from the skin
- Enhances spreadability of products
- Can significantly reduce skin irritation associated with any anionic and amphoteric surfactants

Applications: Lotions, creams, after-shave products, bar soaps, bath products, shampoos and cleansing products.

Palmitic Acid

Item No. EMF-PALMITACID-01

Emulsifying fatty acid derived from palm oil that is made in an environmentally sustainable manner by a manufacturer who is a full-fledged member of the Roundtable on Sustainable Palm Oil (RSPO) and fully complies with all domestic and international regulatory requirements for fair trade.

CAS: 57-10-3

INCI NAME: Palmitic acid

Benefits:

- Acts as viscosity builder, emollient and co-emulsifier
- Acts also as superfatting agent and opacifier
- Widely used to improve emollience and thickness of emulsions

Applications: Creams, cream rinses, shampoos and conditioners, soaps, and many other basic cosmetic preparations.

Butylene Glycol

Item No. HUM-BUTGLYC-01

Organic multi-purpose alcohol (synonym: 1,3-butanediol) used as humectant, solvent, antimicrobial agent and emollient.

CAS: 107-88-0

INCI NAME: 1,3 butylene glycol

Benefits:

- Can be used across a wide range of leave-on and rinse-off formulations to add moisture and emolliency
- Widely used as alternate solvent for glycerin or propylene glycol in water-based systems

Applications: Serums, creams & lotions, hair care products, color cosmetics.

Isopropyl Palmitate

Item No. ELL-ISOPROPALM-01

Multi-functional fatty acid made of the ester of isopropyl alcohol and palmitic acid derived from renewable vegetable oils.

CAS: 142-91-6

INCI NAME: Isopropyl palmitate

Benefits:

- Has excellent emollient and lubricant properties
- Non-tacky, non-oily, fast spreading, and effective absorption
- Widely used as wetting agent and fragrance enhancer

Applications: Bath oils, skin creams, sunscreens, shaving creams, vanishing creams, hair conditioner, pre-shaves & aftershaves, shampoos, bath oils, aerosol antiperspirants and deodorants.

Cholesterol NF

Item No. ELL-CHOLE-01

Cholesterol is a sterol that produces the emollient effect of lanolin alcohols. The skin lipids present on the skin surface contain Cholesterol. Obtained from sheep wool derivatives. 95-100% pure.

CAS: 57-88-5

INCI NAME: Cholesterol

Benefits:

- NF/USP grade
- Excellent natural emollient
- The hydrophobic nature of cholesterol helps for irritated, dry and chapped skin and for dry, damaged hair

Applications: Creams, lotions, hair care products (conditioners, hair pomades).

Triglyceride Blend

Item No. ELL-CCMSTRIGL-01

Specialty blend of triglycerides based on saturated even-numbered, unbranched natural fatty acids of vegetable origin.

CAS: 208126-53-8

INCI NAME: Caprylic/capric/myristic/stearic triglyceride

Benefits:

- Used as a non-oxidizing emollient or fat base particularly for processing in high-quality dermal preparations
- Does not leave a tacky feel or greasy shine on the skin like paraffins
- Spreads well on the skin and penetrates easily

Applications: Serums, creams & lotions, lip balms, face & hair masks.

Amodimethicone

Item No. ELL-AMDI-01

Milky, white silicone emulsion (amino-modified polydimethylsiloxane emulsion) offering excellent conditioning & softening properties.

CAS: 68554-54-1, 24938-91-5, 112-02-7

INCI NAME: Amodimethicone, trideceth-12, cetrimonium chloride

Benefits:

- Partial water dispersible silicone emulsion for use in hair conditioners, hair spritzes and styling products
- Protects the hair shaft, moisturizes hair, gives softness and shine
- Adds a silky feel to skin care creams and reduces greasiness

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions.

Squalane Light

Item No. ELL-SQUAL-02

100% plant-based emollient (synonym: hemisqualane) derived from plant sugars (sugar cane) that is a perfect alternative for petroleum-based paraffins and silicone ingredients.

CAS: 3891-98-3 (or also 64741-76-0)

INCI NAME: Hydrogenated farnesene or C13-15 alkane

Benefits:

- NPA certified (The Natural Seal)
- Creates elegant and light textures with a non-tacky, non-greasy and silky finish
- High spreadability

Applications: All kinds of skin care products, hair conditioners, lip balms, lip sticks, makeup.

Cyclomethicone

Item No. ELL-CYCLM-01

100% active cyclic silicone polymer blend consisting of siloxane D4 (cyclotetrasiloxane) and siloxane D5 (cyclopentasiloxane).

CAS: 556-67-2, 541-02-6

INCI NAME: Cyclotetrasiloxane, cyclopentasiloxane

Benefits:

- Rapidly evaporates without cooling the skin. Leaves the skin dry, smooth and silky
- Ideal carrier for makeup, other color cosmetic skin creams, deodorants and stick products without the oily feel
- Provides excellent stability and aesthetics

Applications: Color cosmetics, creams, deodorants, sticks, hair care products.

Propanediol 1,3

Item No. HUM-PROP-01

Propanediol 1,3 is a natural, skin-friendly preservative-boosting humectant for all kinds of formulations. It is made from renewable corn sugar fermentation.

CAS: 504-63-2

INCI NAME: Propanediol 1,3

Benefits:

- 100% natural
- Can be used to replace petroleum-based glycols such as propylene glycol, butylene glycol or glycerin in formulations
- Acts as humectant, emollient, skin penetration enhancer and solvent

Applications: Creams, lotions, shampoos, conditioners, sun care, skin treatments.

Lanolin Alcohol

Item No. WAX-LNAL-02

Highly purified mixture of aliphatic alcohols, steroid alcohols & triterpenoid alcohols obtained by hydrolysis of USP grade lanolin (fat of sheep wool).

CAS: 8027-33-6

INCI NAME: Lanolin alcohol

Benefits:

- Non-gelling thickener and emollient
- Ideal ingredient for lipsticks and other stick cosmetics
- Provides smooth and soft feel

Applications: Lipsticks, lip balm, antiperspirant sticks, various emulsion (lotions, creams and hand creams).

Myristyl Myristate

Item No. ELL-MYRMYS-01-125

Non-greasy solid emollient is the ester of myristyl alcohol & myristic acid. Enhances esthetic properties of skin care products, gives more body & spreadability. Melting point (~38°C/100°F).

CAS: 3234-85-3

INCI NAME: Myristyl myristate

Benefits:

- Increases the body of creams and lotions
- Imparts a soft, slightly waxy after feel
- Acts as superfatting agent for soaps and lubricant for shaving creams

Applications: Soaps, creams, makeup, lotions, hair conditioners, shaving products.

Isohexadecane

Item No. ELL-ISOHEX-01

Branched hydrocarbon dry-finish emollient that leaves a light silky feeling on the skin.

CAS: 4390-04-9, 60908-77-2

INCI NAME: Isohexadecane

Benefits:

- Excellent emollient and skin-conditioner for makeup products, skin and hair care products
- Ideal cleansing ingredient for face and eye makeup cleansers
- Compatible with silicone

Applications: Face creams, lotions, makeup, face oils, color cosmetics, makeup removers, hair care.

Silicone Resin

Item No. ELL-TRIPOL-01

Unique combination of silicone resins especially developed to provide excellent transfer and wash-off resistance combined with a flexible film for long-lasting, long-wearing, smudge-proof cosmetic products.

CAS: 56275-01-5, 115341-02-1

INCI NAME: Trimethylsilyloxysilicate, polypropyl silsesquioxane

Benefits:

- Excellent film former for long-lasting, rub-off resistant and long-wearing permeable films
- Improves color intensity and shine
- Enhances the SPF wash-off resistance in sunscreens

Applications: Sunscreens, makeup, foundation, lipsticks, color cosmetics that need wash-off & rub-off resistance.

Silicone Gel

Item No. ELL-CYCDIMVIN-01

Silicone gel is a non-emulsifying elastomer gel made of an organosiloxane polymer dispersed in cyclopentasiloxane.

CAS: 541-02-6, 556-67-2

INCI NAME: Cyclopentasiloxane, dimethicone/vinyltrimethylsiloxysilicate crosspolymer

Benefits:

- Easily spreadable on skin and gives a nice, non-greasy, silky skin feel
- Thick emollient that adds viscosity and substance to creams
- Leaves a non-tacky film on the skin and improves water resistance of formulations

Applications: Creams, lotions, sunscreen, makeup, lipsticks, hair care.

Ethylhexyl Palmitate

Item No. ELL-ETHXPL-01

Ester of 2-ethylhexanol and palmitic acid. Synonym: Octyl Palmitate. Saponification value 130 - 160.

CAS: 29806-73-3

INCI NAME: Ethylhexyl palmitate

Benefits:

- Non-occlusive emollient that provides a silky feel in various skin and hair care products
- Medium spreading
- Can replace mineral oil in formulations

Applications: Color cosmetics, pressed powders, skin care product, sun care products.

Dimethicone Fluid

Item No. ELL-DIMT-02

Dimethicone Fluid is a 100% active linear silicone polymer with a viscosity of only 10 cps.

CAS: 63148-62-9

INCI NAME: Dimethicone

Benefits:

- Used for its low viscosity in various liquid, low-viscous skin and hair care products
- Will take out the whitening of creams and lotions when rubbed into the skin
- Gives a non-greasy, dry feel

Applications: Hair & skin conditioning products as shampoos, conditioners, creams, lotions, but also color cosmetics. Skin protectant products.

Lauryl Laurate

Item No. ELL-LAURYLLTE-01

Plant based, low-molecular weight emollient (mono-ester), slip agent, and skin-penetrating agent for anhydrous systems.

CAS: 13945-76-1

INCI NAME: Lauryl laurate

Benefits:

- Multi-functional emollient and film-former that reduces greasy feel of oil systems
- Can replace ester oils in cosmetic formulas
- Provides a silicone like after-feel

Applications: Creams, pomades, salve, ointments, eye shadows, pencil and stick cosmetics, hot pour make-up, hair care products, antiperspirants.

Hectorite Gel SOFT

Item No. THK-HECGE-02

Very versatile dispersion of hectorite blended with triglyceride for adding viscosity of oil-phase systems. Viscosity 1.5-3.2 cps. Hectorite is a natural, soft, greasy, white clay mineral occurring in volcanic ash and tuff.

CAS: 73398-61-5, 12691-60-0, 108-32-7

INCI NAME: Caprylic/capric triglyceride, stearylalkonium hectorite, propylene carbonate

Benefits:

- Can be used hot or cold to thicken oil phase systems
- Provides viscosity control
- Enhances skin feel by masking greasy or tacky components

Applications: Emulsions (creams, lotions), sun care, mascara, lip color, lip glosses, massage gels.

Ethylhexyl Olivat

Item No. ELL-ETHXOL-01

Natural emollient made from olive oil as an alternative to silicones including dimethicone and cyclopentasiloxane, cyclohexasiloxane.

CAS: 22047-49-0, 111-01-3

INCI NAME: Hydrogenated ethylhexyl olivate, hydrogenated olive oil unsaponifiables

Benefits:

- Contains nourishing phytocompounds to support healthy skin
- Softens hair and skin by adding a protective film and reducing greasiness
- Naturally derived, low-viscosity emollient leaving the skin non-tacky, dry and soft

Applications: Face and body creams and lotions, hair care products (shampoos, conditioners), sunscreens, after-sun cooling gels.

Tribehenin

Item No. THK-TRIBHEN-01

Tribehenin is the triglyceride of behenic (C22) acid. Very soft and amorphous (non-crystalline) wax and can be used to modify the properties of other waxes by softening structure and reducing crystallinity and rigidity.

CAS: 18641-57-1

INCI NAME: Tribehenin

Benefits:

- Imparts gloss to stick systems, improves pay-off, and provides products with a smooth application and pleasant feel
- Particularly useful for formulating anhydrous systems such as lip salves and soft solid antiperspirants
- Can also be used as a suspending and thickening agent

Applications: Stick products, deodorants, lip balms, pomades, foundations, creams, lotions.

Aloe Vera Palmitate

Item No. HUM-ALVEPAL-01

Mixture of aloe vera extract (20%) and ethylhexyl palmitate (80%) which is an ester of 2-ethylhexanol and palmitic acid.

CAS: 29806-73-3, 85507-69-3

INCI NAME: Ethylhexyl palmitate, Aloe Barbadensis (aloe vera) extract

Benefits:

- Non-occlusive emollient with a rich but non-oily, silky skin feel
- Offers great moisturizing and soothing properties
- Can replace mineral oil in formulations

Applications: Creams, lotions, gels, color cosmetics, pressed powders, hair and sun care products.

Oat Emollient

Item No. OIL-OATEMOL-01

Natural oily lipid complex cold-pressed from oat kernels.

CAS: 84012-26-0

INCI NAME: Avena Sativa (oat) kernel oil

Benefits:

- Outstanding skin absorbancy resulting in a non-greasy feeling
- Non-comedogenic oil showing reduced occurrence of papules, blackheads and lesions
- Acts as an occlusive and a humectant due to the high ceramide content

Applications: Creams, lotions, ointments, bath oils, hair care & sun care products, baby care products.

Marula Tetradecane

Item No. ELL-MARUTETRA-01

Light, luxurious, non-polar emollient made from 100% vegetable derived tetradecane and Marula kernel oil. Can replace silicones in formulations.

CAS: 68956-68-3, 629-59-4

INCI NAME: Sclerocarya Birrea (Marula) kernel oil, tetradecane

Benefits:

- Natural alternative to fluid silicones
- Ideal emollient for sensitive skin
- Obtained from renewable sources (free of palm oil and coconut oil)

Applications: Creams, lotions, color cosmetics, makeup, sun care products, baby care products.

VollLip

Item No. THK-VOLLIP-01

Proprietary blend of oils, extracts, active ingredients and polymers creating an effective lip plumping complex that enhance the appearance of lips for instant volumizing and warming effects.

CAS: 68937-10-0, 93-60-7, 85940-30-3, 8001-22-7, 8007-08-7

INCI NAME: Hydrogenated polyisobutene, methyl nicotinate, Capsicum Frutescens (chili pepper) fruit extract, glycine soja (soybean) oil, Zingiber Officinale (ginger) root oil

Benefits:

- Instantly stimulates lips promoting natural circulation to help create fuller-looking lips
- Has a noticeable warming effect
- Provides a unique sensory experience

Applications: Lipsticks, lip gloss, lip balms, lip pomades.

Brassica Oil Copolymer

Item No. ELL-BRSOLCO-01

Biodegradable botanical based polymer made from sustainable tung (China wood) and rapeseed oils. It forms a flexible and uniform film on the skin and hair for even coverage.

CAS: 185323-46-0

INCI NAME: Brassica Campestris/Aleurites Fordi oil copolymer

Benefits:

- Great film-forming properties to repair thermally stressed and frizzed hair.
- Silicone substitute: Strengthens hair to prevent breakage better than many silicones.

Applications: Face creams & lotions, shampoo & conditioners, frizz control serums, primer & post treatments, leave-on conditioners, hair masks.

BioJelly

Item No. ELL-COCOTRIHEPT-01

Natural, biodegradable elastomer gel with enhanced compatibility with polar materials such as natural oils and organic sunscreens.

CAS: 95912-86-0, 620-67-7, 8001-79-4, 112-40-3

INCI NAME: Coco-caprylate/caprates, triheptanoin, C9-12 alkane, dilinoleic acid/propanediol/PDI crosspolymer

Benefits:

- Natural silicone substitute with soft moisturizing feel, great emolliency, and luminous appearance
- Offers unique sensory aesthetics and skin feel
- Compatible with natural oils and various polar materials incl. sunscreens

Applications: Skin care, color cosmetics, body care, sun care, hair care.

Castor Lip Base

Item No. ELL-CASTLIPBS-01

Natural blend of castor oils and carnauba wax forming a viscous, emollient gel that can be used as base for lip care products or as alternative to petrolatum in a variety of cosmetic products.

CAS: 8001-79-4, 8001-78-3, 8015-86-9

INCI NAME: Ricinus communis (castor) seed oil, hydrogenated castor oil, copernicia cerifera (carnauba) wax

Benefits:

- Natural & botanically derived emollient & lubricant
- Can be used as substitute for petrolatum
- Enhances consistency and viscosity (e.g. ideal base for lip care products)

Applications: Lipsticks, lip balms, creams, lotions, hair care products, hair styling products, creams, lotions, balms, night creams, sun care products

Coco Caprylate Caprate

Item No. ELL-COCOCACA-01

Ester of natural fatty alcohol, caprylic acid and capric acid. 100% derived from natural, renewable feedstocks.

CAS: 95912-86-0

INCI NAME: Coco-caprylate / caprate

Benefits:

- Fast spreading, low-greasiness emollient that provides very light skin feel similar to silicone oils
- Can be incorporated with powders, colorants, and UV filters to enhance their solubility

Applications: Applicable in skin and hair care product as emollient for "oil-free products", solvent of sunscreen filters in sun care products, dispersing agent for pigments in color cosmetics

Dimethicone Satin

Item No. ELL-DIMSAT-01

Mixture of low and high molecular weight linear silicones. Linear silicones are large polymers (polydimethylsiloxanes) and usually are viscous and more oil-like.

CAS: 9006-65-9, 63148-62-9**INCI NAME:** Dimethicone**Benefits:**

- Has a different feel than ordinary dimethicones as it provides more cushion, greater slip, with a satiny after-feel
- Takes out tackiness of products and is greatly moisturizing
- Provides luxurious skin feels for creams and lotions

Applications: Creams, lotions, hair care products, shower gels, sun care, makeup, massage treatments.

1596 - Loose Shimmer Bronzing Powder

Weight: 50.00g

Ingredient	INCI	Function	Percent	Wgt (g)	Wgt (oz)
Phase A					
Pigment Blend Earth Brown	titanium dioxide, CI 77492 [iron oxides]	Colorant	55.30	27.65	0.98
Signature Mineral Base MS	Mica, titanium dioxide, zinc oxide, magnesium stearate, silica	Base	33.20	16.60	0.59
Wrinkle Blur	dimethicone/vinyl dimethicone crosspolymer, silica	Texturizer	2.20	1.10	0.04
Iron Oxide Yellow	CI 77492 [iron oxide yellow]	Colorant	2.20	1.10	0.04
Phase B					
Mica Walnut	CI 77019, iron oxide	Colorant	3.30	1.65	0.06
Mica Gold Rush	CI 77019, titanium dioxide	Colorant	3.80	1.90	0.07

Procedure

Combine phase A in a mortar, combine well with a pestle until all is homogeneous. Once combined, add phase B and stir with a spatula or stirring rod so the mica shimmer isn't disturbed. Pour into pots with sifters for easy use.

Properties

This shimmery bronze powder can be used on the face, eyes, shoulders, legs, or anywhere you want a little sun-tanned glow. Reduce earth brown pigment blend for a more transparent application or increase it for a deeper color.
