Method

Add Phase A one by one into a glass beaker and stir well until uniform. Adjust the color with mica as you wish. Fill the lip gloss into lip gloss containers with applicator, using a syringe. The lip gloss is very viscous to make it more liquid and therefore easier for bottling heat it to 50C/122F.

Properties

Jojoba Gel is a very viscous jojoba product with great sheer. Formulated with liquid jojoba, and the two vitamin E as antioxidant protection. The lip gloss can be used over lipstick or just as is.
