Procedure

Combine phase A in a heat-resistant beaker and heat to 65 C/150 F. Combine phase B in a separate heat-resistant beaker and heat to the same temperature. Add phase A to B with plenty of stirring, and remove from heat. Continue to mix until cooled to 40 C/105 F and then add phase C. Mix well and pour into jars.

Properties

This clay mask hydrates the skin with honey extract while absorbing oil and dirt from the skin and pores. Apply to the face in an even coat and allow to dry for 15 minutes, then rinse off. Gently massage face to exfoliate with the bamboo stem powder and pat dry to reveal luminous skin.
