

1153 - Sulphur Clay Mask for Oily & Combination Skin

Weight: 100.00g

Ingredient	INCI	Function	Percent	Wgt (g)	Wgt (oz)
Phase A					
Distilled Water	aqua	Diluent	52.00	52.00	1.83
Glycerin, USP	glycerin	Humectant	3.00	3.00	0.11
Carbomer 940	carbomer 940	Thickener	0.20	0.20	0.01
Phase B					
Kaolin	kaolin	Texturizer	30.00	30.00	1.06
Sulphur Mud	silt	Texturizer	5.00	5.00	0.18
Willow Bark Extract	glycerin, water, salix alba (willow) bark extract	Botanical	2.00	2.00	0.07
Bacillus Ferment	water, glycerin, propylene glycol, bacillus ferment	Exfoliator	2.00	2.00	0.07
Witch Hazel Extract	glycerin, water, hamamelis virginiana (witch hazel) extract	Botanical	2.00	2.00	0.07
Chamomile Flower Extract, USDA Certified Organic	organic oryza sativa (rice) extract, organic chamomilla recutita matricaria (chamomile) flower extract	Botanical	2.00	2.00	0.07
Phase C					
Laureth-3	laureth-3	Emulsifier	1.00	1.00	0.04
AntiMicro Root Blend	hexylene glycol, caprylyl glycol, wasabia japonica root extract, zingiber officinale (ginger) root extract, allium sativum (garlic) bulb extract, water	Antimicrobial	0.80	0.80	0.03

Procedure

Combine phase A ingredients (1-3), mix well until the carbomer is dissolved (use stick blender or homogenizer for best results). Add phase B ingredients in order, stir well after each ingredient. Add phase C to phase A/B and stir well. Mix again with a stick blender or homogenizer to get a smooth, nice consistency. Because of its thick consistency package into tubes or jars. If a fragrance is used, replace Orange-Lemongrass blend with CitrusCombo. Add fragrance at 0.2% concentration. CitrusCombo will lower the pH, so after a good final mix with stick blender or homogenizer check the consistency, if there is separation measure the pH and make adjustments. Ideal pH 5-6.

Properties

Apply a semi-thick layer to clean, damp skin and let dry. This can take up to 15min. depending how much was applied. Then rinse off using warm water.
