Fragrance Mandarin Berry		0.40	0.40	0.01	0.08
Citric Acid (citric acid)		0.10	0.10	0.00	0.02

#### Method

In a heat resistant vessel combine phase A ingredients, stir, and heat to 170F/65C. Combine phase B ingredients in another heat resistant vessel and heat to the same temperature. Add phase A to phase B and blend well. Remove from the heat source. Use a homogenizer or stick blender and mix thoroughly. Cool to 100F/40C. Add phase C ingredients to phase A/B and stir well between ingredients. Measure the pH of the cream and adjust to pH 5.5-6.5 with citric acid. Stir well for one minute before re-measuring the pH. Repeat if necessary. Fill jars.

#### Properties

Apply to damp hair and have it soaked into the hair for several minutes. Enriched with rhodiola, bamboo, provitamin B5, squalane, macadamia and olive to nourish & strengthen the hair. Combination of two conditioners will help soften the hair and have anti-frizz properties as well. For more detailed info about each ingredient please visit our website.
