

## 1999 - Football Color Makeup

Weight: 100.00g

| Ingredient                   | INCI   | Function       | Percent | Wgt (g) | Wgt (oz) |
|------------------------------|--|----------------|---------|---------|----------|
| <b>Phase A</b>               |  |                |         |         |          |
| Natural Eye Shadow Base No.2 | Isododecane, polymethylsilsesquioxane/trimethylsiloxysilicate, polyhydroxystearic acid, euphorbia cerifera (candelilla) wax, lauryl laurate, helianthus annuus (sunflower) seed wax, caprylic / capric triglyceride, octyldodecanol, silica, dl-alpha tocopherol | Emollient/Base | 80.00   | 80.00   | 2.82     |
| Ultra Marine Blue            | CI 77007   | Colorant       | 20.00   | 20.00   | 0.71     |

### Procedure

1. Sanitize the beakers and have all the ingredients ready.
2. Weigh the Eye Shadow Base in a beaker.
3. Weigh the ultramarine Blue in another small container. Suggested concentration 10-30%. This depends on the intensity of the color and we suggest to start out with 10% then increase if necessary.
4. Mix both the ingredients until you get a uniform color mixture
5. Heat to 60C, blend well, pour and package into small pots or into an eye shadow palette.
6. Ultramarine blue is not to be used in makeup for the lips.
7. Other suitable colors are ultramarine pink, d&c red colors, fd&c yellow, titanium dioxide or zinc oxide (white). Micas for color variation and sheen can be added as well.

### Properties

Football Makeup for the cheeks and eyes. Stand out in the crowd.
