Method

Blend phase A. Add phase B to phase A, one ingredient at the time and under gentle agitation/stirring. Add phase C and gentle stir. Consistency is a semi-viscous liquid, package into bottles with dispenser or pump.

Properties

Concentrated but mild cleanser with soothing lavender water. Yogurt Filtrate is adding various nutrients including carbohydrates, proteins, fat, minerals (calcium, phosphorus, zinc, iron), and vitamins (vitamin A, thiamin, riboflavin, pyridoxine, niacin, and folic acid). It may help with moisturizing and smoothing the skin. Exfoliates slightly as well and revitalizes due to the natural content of lactic acid.
