Procedure

Phase A: Disperse the GelMaker® Hydro in the butylene glycol, then add to the water portion. Heat to 75C.
 Phase B: Weigh and add all ingredients to mixing vessel. Heat to 75C.
 Add phase A to phase B under constant stirring (e.g 400-500rpm). Remove from the heat and cool to 40C.
 Homogenize for a short time.
 Phase C: Add to phase A/B and blend again well. Fill into jar. Formulation will thicken a bit further after a few days.
 pH 5.0

Properties

A rich yet lightweight body butter for face and body that melts into skin, leaving it velvety-soft and deeply hydrated—never greasy. Infused with quince extract to soothe and lock in lasting moisture for a smooth, healthy glow.
