Dragon Blood

6 Parts Red D&C No. 7 Lake, Liquid
5 Parts Red No. 40 FD&C Lake
1 Part Iron Oxide Black
1 Part Iron Oxide Brown

Color Amounts: For about 2 tsp of matte lipstick base (= about 10g) one part of pigment equals about 3 drops (= 1.5%) or one small dispensing spoon (leveled) which is about 1 /40 regular teaspoon.

The color chart only gives approximate guidelines and the color intensities and shades can vary. If the lipstick feels to matte, add a few drops of mineral oil and blend well.
