

Argan Surfactant

Specification Sheet

Description: Argan Surfactant is a gentle surfactant with a high concentration of Argan oil, that was organically grown from non-GMO crop. Argan oil is a natural emollient with a rich feel and contains a high amount of fatty acids, particularly omega 6 and Omega 9. Argan Surfactant can lower the irritation potential of other surfactants and act as a co-emulsifier in emulsion systems. It is ideal for the sensitive skin and baby care.

CAS: 7732-18-5, 110615-47-9, 223747-87-3

INCI Name: Water, Lauryl Glucoside, Argania Spinosa Kernel Oil

Composition: Water, Lauryl Glucoside, Argania Spinosa Kernel Oil

Appearance: Pale to moderate yellow

pH Value: 6-8

Benefits:

- Contains argan oil that help moisturize skin & hair during application
- Effective mild cleanser for skin & hair care
- Derived from argan oil
- Superior mildness
- Acts as co-emulsifier in emulsions
- Contains high levels of argan oil making adding emollients to cleansing systems unnecessary

Use: Typical use level in cleansing systems: 5-40%, as a co-emulsifier: 0.5-2%. Add to the water phase of a formulation or add at the end of the formulating process. For external use only.

Applications: Shampoo, facial cleansers, bath gels, shower gels, emulsions.

Solubility: Soluble in water & ethanol

Preservation: Preservative-free

Storage: Shampoo, facial cleansers, bath gels, shower gels, emulsions.

Country of Origin: USA
