

Spring Colored Eye Shadow

(Sample Recipe for Mica Carmine Red)

Spring Colored Eye-Shadow

Phase A	Weight %	For 20 g /0.7 oz
Mineral Base	81 %	16.2 g / 0.6 oz
Magnesium Stearate	5 %	1 g / 1/2 tsp
Phase B		
Ultramarine Pink	4 %	0.8 g / 1/4 tsp
Phase C		
Mica Bordeaux	2.5 %	0.5 g / 1/4 tsp
Mica Carmine Red	2.5 %	0.5 g / 1/4 tsp
Mica Light Blue	2.5 %	0.5 g / 1/4 tsp
Mica Diamond Cluster	2.5 %	0.5 g / 1/4 tsp

Method

Give Phase A into a clean mortar and blend well with the pestle.

Add phase B to Phase A and blend well with the pestle or divide Phase A to make multiple colors.

When Phase C is added the pestle should not be used anymore.

Alternative colors are for example: ultramarine blue instead of the ultramarine pink or a combination of the two to create purple. The proportions of the colors can be changed, by adding more to create more intense shades or less for lighter pastel shades.

Properties

Loose eye shadow to be used with small shaker/sifter jars.
