Ingestion: Not a direct hazard. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Consult with a physician. Seek medical attention if necessary.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperature. Use appropriate media (dry powder, foam, carbon dioxide) for adjacent fire. Do not use direct water jet.
Special protective equipment & precautions for firefighters: Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. Avoid vapor inhalation, keep away from sources of ignition. Do not smoke.
Flash Points: >250°C
Specific hazards arising from the chemical: Closed containers may build up pressure when exposed to heat and should be cooled with water spray. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:

Be careful. Danger of sliding possible. Avoid contact with the eyes. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions:

Try to avoid spilling. Do not empty in to drain. Restrict to smallest spill possible. Notify environmental authorities in case of large leaks.

Methods and material for containment and cleaning up:

Remove all ignition sources. Cover with absorbent material (e.g., paper towels, sand, siliceous earth). Dispose of all waste and cleanup materials in accordance with regulations.

7 HANDLING & STORAGE

Precautions for safe handling:

Apply good manufacturing practice and industrial hygiene practices. Observe good personal hygiene and do not eat, drink, or smoke while handling. Avoid static discharges. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.

Conditions for safe storage, incl. any incompatibilities:

Store in tightly closed original container in a cool, dry area away from heat sources and protected from light. Keep air contact to a minimum. Keep away from ignition sources & naked flames. Take precautions to avoid static discharges in working area (see section 10 for incompatibilities).
