

INSTAWash CH

Specification Sheet

Description: INSTAWash CH is a very fine blend of surfactants that will foam up when in contact with water.

CAS: 9004-34-6, 29923-31-7, 90387-74-9, 61789-32-0, 9004-57-3, 16291-96-6, 7631-86-9

INCI Name: Microcrystalline Cellulose (and) Sodium Lauroyl Glutamate (and) Sodium Cocoyl Glycinate (and) Sodium Cocoyl Isethionate (and) Ethylcellulose (and) Charcoal Powder (and) Silica

Composition: Microcrystalline Cellulose, Sodium Lauroyl Glutamate, Sodium Cocoyl Glycinate, Sodium Cocoyl Isethionate, Ethylcellulose, Charcoal Powder, Silica

Appearance: Light to darker grey powder granules. Particle size between 75-600 microns.

Benefits:

- Instant cleanser when combined with water
- Lightweight for travel
- Mild powder surfactants
- Combined with charcoal powder for added benefits (oily, blemished skin)

Use: Use 1-20%. Add a small amount of powder to the palm of your hand, add about the same amount of water, rub to foam up then use on the skin. For external use only.

Applications: Skin Care, scalp care, hands & feet.

Solubility: Soluble in water & ethanol

Preservation: Preservative free

Storage: Room temperature up to 25°C

Country of Origin: Korea

Raw material source: Plant and synthetic origin

Manufacture: The components are processed in two distinct phases, mixed and dissolved, followed by a drying stage at 65°C. Subsequently, the product undergoes sieving before being finalized through the packing process.
