CAS: 56-81-5, 84082-82-6

INCI Name: Organic Glycerin (and) Organic Salix Alba (Willow) Bark Extract

Composition: Organic Glycerin, Organic Salix Alba (Willow) Bark Extract

Appearance: Medium amber viscous liquid, characteristic odor

Benefits:

- Has soothing properties on irritated skin
- Works as a toning agent and mild cleanser
- Moisturizes the skin

Use: Add at the end of cosmetic formulations at room temperature. Recommended use level is 5-10%. For external use only.

Applications: Add at the end of cosmetic formulations at room temperature. Recommended use level is 5-10%. For external use only.

Solubility: Water-soluble

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature

Country of Origin: USA

Raw material source: Salix Alba (Willow bark), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from organically grown, pesticide-free materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 10% concentrate and 90% diluents.
