**Inhalation:** Remove affected person from source of contamination. Perform artificial respiration if breathing has stopped. Inhalation may cause coughing, tightness of the chest, and irritation of the respiratory system. Move the exposed person to fresh air at once. Get medical attention if any discomfort continues.

**Skin:** If necessary, remove contaminated clothing and wash skin with soap and water. Get medical attention if any discomfort continues.

**Ingestion:** If necessary, rinse mouth and provide fresh air. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Suitable (and unsuitable) extinguishing media:** May be combustible at high temperature. Use appropriate media (foam, carbon dioxide, dry chemical) for adjacent fire. Do not use water.

**Special protective equipment & precautions for firefighters:** Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. Containers close to fire should be removed or cooled with water.

**Flash Points:** No data available

**Specific hazards arising from the chemical:** Products of combustion are toxic. See also Stability and Reactivity section.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment & emergency procedures:** In case of spills, beware of slipper floors and surfaces. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.

**Environmental precautions:** Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.

**Methods and material for containment and cleaning up:** Absorb with inert, damp, non-combustible material, then flush area with water. Shovel into dry containers. Cover and move the containers. Flush the area with water. Dispose of all waste and cleanup materials in accordance with regulations.

## 7 HANDLING & STORAGE

**Precautions for safe handling:** Avoid spilling, skin and eye contact. Ensure adequate ventilation of the working area. Adopt best manual handling considerations when handling, carrying, and dispensing. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.

**Conditions for safe storage, incl. any incompatibilities:** Store in tightly closed container in a cool, dry well-ventilated area. Keep away from heat, sparks, and open flame. Protect from freezing and direct sunlight, and incompatible materials (see section 10 for incompatibilities).
