4 FIRST AID MEASURES

Eyes: Rinse cautiously with water for at least 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Obtain medical attention.

Inhalation: When symptoms occur, go into open air and ventilate suspected area. Obtain medical attention if irritation develops or persists.

Skin: Safe for skin use, if reaction occurs, rinse with mild soap and water. Obtain medical attention if irritation develops or persists.

Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention, with product container or label at hand.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: Not considered flammable but may burn at high temperatures. Product is not explosive. Use appropriate media (water spray, dry chemical, foam, carbon dioxide) for adjacent fire. Do not use direct water jet as it may spread the fire.

Special protective equipment & precautions for firefighters: Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. Use water spray or fog for cooling exposed containers.

Specific hazards arising from the chemical: Hazardous reactions will not occur under normal conditions. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: Do not get in eyes. Do not try to clean up the leak without proper protective equipment. Evacuate unnecessary personnel. Equip clean up crews with proper protection. Ventilate area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions: Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.

Methods and material for containment and cleaning up: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill. Dispose of all waste and cleanup materials in accordance with regulations.

7 HANDLING & STORAGE

Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking, and when leaving work. Avoid prolonged contact with eyes and clothing. Avoid breathing vapors, mist, spray. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.

Conditions for safe storage, incl. any incompatibilities: Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight extremely high or low temperatures and incompatible materials (see section 10 for incompatibilities).
