

Natural Peptide

Specification Sheet

Description: Dual acting superfood derived natural peptide obtained from the seeds of the herbaceous annual plant Chenopodium Quinoa. The seed extract contains small peptides that provide powerful performance to support the structural integrity of the skin. Active matter: 8-12%. pH 4.0-5.5. Clear to slightly hazy, yellow-amber liquid, characteristic odor. Easily water-soluble.

CAS: 223749-71-1, 7732-18-5

INCI Name: Chenopodium quinoa seed extract, water

Benefits:

- Provides powerful, age-defying performance with statistically significant clinical results after 28 days
- Visibly reduces under eye bags & puffiness for well rested eyes
- Diminishes eyelid creases and folds to lift and reshape the eyes
- Reduces eyelid roughness for ageless skin
- Derived from sustainable plant source from an ancient grain.
- Gluten-free

Use: Add as is at the end of formulas or to the water phase of emulsions. Typical use level: 1 - 3%. For external use only.

Storage: Store refrigerated (4-8oC / 39-46oF)

Applications: Anti-aging & anti-wrinkle products, eye wrinkle treatment, hydrating skin care treatments, lip products.

Country of Origin: USA

Raw material source: Seeds of the plant Chenopodium Quinoa

Manufacture: Produced from extracts from the seeds of the plant Chenopodium Quinoa.

Animal Testing: Not animal tested

GMO: GMO-free

Vegan: Does not contain animal-derived components
