

SkinTight C-Root

Specification Sheet

Description: Oligosaccharides (sugars) obtained from chicory root (Cichorium intybus).

CAS: 7732-18-5, 56-81-5, 39300-88-4

INCI Name: Cichorium Intybus (Chicory) Root Oligosaccharides (and) Water (and) Glycerin (and) Caesalpinia Spinosa Gum

Composition: Cichorium Intybus (Chicory) Root Oligosaccharides, Water, Glycerin, Caesalpinia Spinosa Gum, Gluconolactone, Sodium Benzoate, Calcium Gluconate

Appearance: Colorless, slightly yellow liquid viscous solution.

Benefits:

- Shown to have an immediate and medium-term tightening effect on the skin thanks to sequential release of the active ingredient.
- After regular application the skin looks tight, firm and without signs of fatigue.
- Restores splendor of the skin. Enables smoother makeup application.
- Shown to increase collagen synthesis in in-vitro test systems.

Use: Add to the water phase of formulas. Typical use level 2-10%. For external use only.

Applications: Tightening lotions and serums, specialty masks, daily moisturizers, make-up formulations.

Solubility: Water soluble

Preservation: Sodium Benzoate

Storage: Store light-protected at a cool and dry place.

Country of Origin: Spain

Raw material source: Chicory roots (Cichorium intybus)

Manufacture: SkinTight C-Root is made from extracts from chicory roots and then further purified to obtain oligosaccharides.
