Arnica Extract

Specification Sheet

Description: Also called Mountain Tobacco. Arnica Extract is made from the flower part & is primarily used in skin & hair care (external use). Light to medium amber liquid. Contains 20% extract dissolved in water and glycerin, preserved with phenoxyethanol.

CAS: 56-81-5, 7732-18-5, 68990-11-4, 122-99-6

INCI Name: Glycerin, water, *Arnica montana* (Arnica flower) extract

Benefits:

- Helps stimulating the skin for a fresh and rejuvenated complexion
- Widely used to soothe irritated skin and moisturize dry skin.

Use: Water-soluble, added to water phase or after the formulation is completed (o/w emulsions). In w/o emulsions extract has to go into the water phase. Usual concentration 0.5-5%. For external use only.

Applications: Face toners, cleansers, masks, skin lotions, creams.

Country of Origin: USA

Raw material source: *Arnica montana* (Arnica flower), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from organically grown, pesticide-free materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 20 % concentrate and 80% diluents.

Animal Testing: Not animal tested

GMO: GMO-free, but not certified

Vegan: Yes
