4 FIRST AID MEASURES

Eyes:	Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists; seek medical attention.
Inhalation:	Move to fresh air. Seek medical attention if necessary.
Skin:	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Seek medical attention if necessary
Ingestion:	Rinse mouth with water. Do not give milk or alcoholic beverages. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Seek medical attention if necessary.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:	Use appropriate media (Alcohol-resistant foam, Dry chemical) for adjacent fire. Do not use high volume water jet as an extinguisher.
Special protective equipment & precautions for firefighters:	Do not allow run-off from fire-fighting to enter drains or water courses. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Wear self-contained, approved breathing apparatus and full protective clothing,

Flash Points: including eye protection and boots.
453.20 °F (234.0 °C)

Specific hazards arising from the chemical: May emit toxic fumes under fire conditions. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions: Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.

Methods and material for containment and cleaning up: Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains, inform respective authorities. Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal. Dispose of all waste and cleanup materials in accordance with regulations.

7 HANDLING & STORAGE

Precautions for safe handling: Dispose of rinse water in accordance with local and national regulations. Handle substance within a predominantly closed system provided with extract ventilation. See section 8 for recommendations on the use of personal protective equipment.

Conditions for safe storage, incl. any incompatibilities: Keep container tightly closed and dry. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid contact with strong acids, strong bases, and strong oxidizing agents. Keep away from heat. Store away from incompatible materials (see section 10 for incompatibilities).
