

Indian Gooseberry Extract

Specification Sheet

Description: Phyllanthus Emblica (Indian Gooseberry) extract is an active ingredient derived from Amla, a natural adaptogen that is used in Ayurvedic treatments, especially for hair care. It energizes the hair and scalp by increasing collagen XVII protein. Provides follicle strength and pigmentation, resulting in healthier hair growth, strength, volume, and darkening.

CAS: 504-63-2, 56-81-5, 90028-28-7

INCI Name: Propanediol, glycerin, Phyllanthus Emblica fruit extract

Composition: Propanediol, glycerin, phyllanthus emblica fruit extract

Appearance: Clear to slightly turbid, pale brown to brown liquid

Benefits:

- Ayurvedic herb for strengthening hair
- Acts on scalp aging signs before they appear
- May increase volume and shine
- May help prevent follicle miniaturization and weakening
- Rebalances scalp & leaves the hair feeling full of vitality

Use: Add to aqueous phase of formulas (creams, lotions, gels) or add at the end of the formulation process. Recommended use level 1%. For external use only.

Applications: Hair masks, hair conditioners, scalp treatments

Solubility: Soluble in water, alcohol, glycerin, & propylene glycol, lightly soluble in triglyceride

Preservation: Preservative-free

Storage: Store light-protected at a cool and dry place

Country of Origin: Spain

Raw material source: Phyllanthus Emblica (Indian Gooseberry), vegetable-derived glycerin
