

Sunflower Petal Extract

Specification Sheet

Description: Extract is made exclusively from the petals of sunflowers. Contains 20% extract dissolved in water and glycerin.

CAS: 56-81-5, 7732-18-5, 122-99-6

INCI Name: Glycerin, Water, Saponaria Officinalis (soapwort) extract

Composition: Glycerin, Water, Saponaria Officinalis (soapwort) extract, Phenoxyethanol

Appearance: Golden yellow liquid, characteristic odor

pH Value: PH range: 4-7

Benefits:

- Nutritious ingredient for skin and hair
- Ideal for sensitive and irritated skin providing soothing and regenerating properties
- Has good moisturizing effects
- Can be used in hair care products to add shine or combined with neutral henna and chamomile to add golden highlights to dark hair

Use: Water-soluble, added to water phase or after the formulation is completed (o/w emulsions). In w/o emulsions extract has to go into the water phase. Typical use level 1-10%. For external use only.

Applications: Lotions, creams, face toners, cleansers, masks, hair care products.

Solubility: Water-soluble

Preservation: Phenoxyethanol

Storage: Store in a closed container at a dry place at room temperature

Country of Origin: USA

Raw material source: Helianthus Annuus (sunflower), glycerin made of naturally derived oils

Manufacture: Prepared via a cold process to avoid potential loss of effectiveness heat processing can have. Created from naturally grown, pesticide-free materials which are extracted first with a specified eluant to yield a concentrate. This concentrate is then dissolved in glycerin and water at a concentration of 20% concentrate and 80% diluents.

Animal Testing: Not animal tested

GMO: GMO-free

Vegan: Does not contain animal-derived components

HS Code: 2101202000
