Signature Mineral Base

Specification Sheet

Description: New Standardized & homogenized blend of various natural mineral powders, with a higher silica content for silky skin feel, including mica powders, zinc oxide & titanium dioxide, silica. Fine white powder, no odor. Insoluble but miscible in water & oils.

CAS: 12001-26-2, 7631-86-9, 1314-13-2, 13463-67-7

INCI Name: Mica, zinc oxide, titanium dioxide, silica.

Properties: Provides natural & even looking skin without the feel of heavy make-up, diminishes fine lines & wrinkles, spherical mineral components give nice velvet feel.

Use: For mineral makeup: mix base with iron oxide pigments or our "pigment blends". For eye shadows or blush: mix base with our mica pigments.

Application: Makeup products incl. mineral makeup, face powders, powder foundations, eye shadows, eyeliners, mascara & blush.
