

CreamMaker® Moringa

Specification Sheet

Description: Completely natural oil-in-water emulsifier and stabilizer blend for making creams, lotions and other emulsions with a silky, melting feel. Made from oils obtained from the seeds of the horseradish tree (Moringa Oleifera). Effective in a wide pH range (4-9). HLB value 12-13 (gives oil-in-water emulsions)

CAS: 246159-33-1, 31556-31-1, 93165-54-9

INCI Name: Cetearyl Glucoside, Glyceryl Stearate, Moringa Oleifera Seed Oil

Composition: Cetearyl Glucoside, Glyceryl Stearate, Moringa Oleifera Seed Oil

Appearance: Off-white to light tan, solid flakes, characteristic odor.

Benefits:

- Effective oil-in-water emulsifier.
- Versatile emulsifying properties, no need for co-emulsifiers, may need a stabilizer or thickener for thicker creams.
- Provides a silky, melting light skin feel.
- Has no soaping effect.
- Very stable and compatible with blends of performance ingredients, fragrance, acids, and base.

Use: Warm to melt before use. Add to oil phase of emulsions. Typical use level 3-6%. For external use only.

Applications: All kinds of cosmetics requiring emulsification as lotions, creams, gels.

Solubility: Water-insoluble, dispersible in water & oil.

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature.

Country of Origin: USA

Raw material source: Seeds of the horseradish tree (Moringa Oleifera).

Manufacture: Blend of various fatty acids and fatty alcohols extracted from Moringa Oleifera seed oil. Does not contain palm oil derived components.
