Mica Coral Red

Specification Sheet

Description: Natural shimmer pigment coated with iron oxides and titanium dioxide. Cosmetic-grade fineness (particle size range 10-50 um).

CAS: 12001-26-2, 13463-67-7, 68583-95-9, 1317-61-9

INCI Name: Mica, Titanium dioxide, FD&C Red 40 (CI16035:1), Iron Oxide (CI77499)

Composition: Mica, Titanium dioxide, FD&C Red 40 (CI16035:1), Iron Oxide (CI77499)

Appearance: Coral red shimmer powder

Benefits:

- Provides radiant coral-red color shades with shimmering and glittering luminescence.
- FDA permitted exempt color for cosmetic use.

Use: Suspends best in thick bases. Can be blended with other pigments. For external use only.

Applications: All kinds of decorative cosmetics & personal care products.

Solubility: Insoluble, but easily dispersible in liquids (sinks to bottom in thin liquids).

Preservation: Preservative-free

Storage: Store light-protected at a cool and dry place.

Country of Origin: India

Raw material source: Natural mica (muscovite and/or phlogopite)

Manufacture: Natural micas are mined from granitic pegmatites and then coated with various pigments (e.g. iron oxides, titanium dioxide) to give them their specific color.

Animal Testing: Not animal tested.

GMO: GMO-free (does not contain plant-derived components)

10800 231st Way NE Redmond, WA 98053 Phone: 425-292-9502 makingcosmetics.com

Vegan: Does not contain animal-derived components.

HS Code: 2525200000

California Prop 65: Proposition 65: WARNING: This product can expose you to chemicals including titanium dioxide, which is known to the State of California to cause cancer if it occurs airborne as unbound particles of respirable size. or reproductive toxicity. For more information, go to www.P65Warnings.ca.gov

Regulatory Information: Mica Coral Red is an FDA-approved color additive but is exempt from batch certification. Micas are safe for use in coloring cosmetics generally, including cosmetics applied to the area of the eye, in amounts consistent with good manufacturing practice.
