4 FIRST AID MEASURES

Eyes:	Immediately rinse with water for at least 15 minutes, while keeping the eyes wide open. Consult with a physician.
Inhalation:	Move to fresh air from exposure area. Get medical attention for breathing difficulty.
Skin:	Rinse with soap and water. Get medical advice if irritation develops.
Ingestion:	Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Consult with a physician.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:	May be combustible at high temperature. Use appropriate media (water, dry chemicals, foam, & carbon dioxide) for adjacent fire. Do not use direct water jet.
Special protective equipment & precautions for firefighters:	Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. Move container from fire area if it can be done without risk. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low area.
Flash Points:	No data available
Specific hazards arising from the chemical:	Not considered to be a fire and explosion hazard. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Avoid contact with eyes. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Prevent entry into sewers and waterways. Do not allow material to contaminate ground water system. Notify environmental authorities in case of large leaks.
Methods and material for containment and cleaning up:	Pick up free liquid for recycling or disposal. Residual liquid can be absorbed on an inert material. Wash non-recoverable remainder with water.

7 HANDLING & STORAGE

Precautions for safe handling:	Keep out of reach of children. For industrial use, only as directed. Wash hands after use. Avoid storage near feed or food stuff. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.
Conditions for safe storage, incl. any incompatibilities:	Keep container closed. Store in a cool, dry place. Store in a dry place at temperatures not exceeding 32°C. Based on stability studies, the optimum storage temperature for maximization of shelf life is 23-25°C. However, it may be stored at temperatures between 16-32°C if such specific temperature control is not available. Do not freeze. Avoid contact with strong oxidizers and incompatible materials (see section 10 for incompatibilities). Product may be packaged in normal commercial packaging. Recommended - Polypropylene & High Density Polyethylene.
