

Aloe Vera Stock Solution 20% Concentrated

(Sample Recipe for Aloe Vera Powder)

Aloe Vera Stock Solution 20% Concentrated

Phase A	Weight %	For 110 g / 3.9 oz
Aloe Vera Powder 200x	10 %	10 g / 0.4 oz
Distilled Water (diluent)	100 %	100 g / 3.6 oz
Phase B		
Phenoxyethanol/SA (preservative blend)	1 %	1 g / 0.04 oz / 22 drops

Method

Dissolve Aloe Vera 200x powder in the distilled water.

Add Phase B and stir well.

Keep solution refrigerated, and use up within a few months.

Properties

Easy solution (still 20% concentrated) for shampoos, lotions and other liquid formulations.
