

Sebum-REG

Specification Sheet

Description: Botanical polyphenol-rich complex from argania spinosa kernel extract (argan oil), serenoa serrulata fruit extract and sesamum indicum (sesame) seed extract. High content of lignans & phytosterols to control sebum production. Does not contain a preservative due to high oil content, but contains the antioxidant tocopherol. Clear, yellow-orange, viscous liquid. Soluble in oil, not water-soluble.

CAS: 299184-75-1, 84604-15-9, 8008-74-0, 83-46-5

INCI Name: Argania Spinosa kernel (Argan) oil, Serenoa Serrulata fruit extract, Sesamum Indicum (Sesame) seed oil, beta-sitosterol

Benefits:

- Effective long-term regulation of sebum production
- Reduces greasiness of the skin and improves the appearance of enlarged pores
- Leads to smooth skin and improves skin overall complexion
- In-vivo tests showed a decrease of 46% in severity of blemished and impure skin condition after 30 days.

Use: Can be added hot (<80°C/176°F) or cold to formulas. Suggested final concentration 1-5 %, preservative-free. Store refrigerated. For external use only.

Applications: Skin care products such as light emulsions or cream-gels, moisturizers, foundations.

Country of Origin: Switzerland

Raw material source: Argan oil, Serenoa Serrulata fruit extract, sesame seed oil

Manufacture: Sebum-REG is produced from extracts obtained from argan and sesame seed kernels as well as Serenoa Serrulata fruits.

Animal Testing: Not animal tested

GMO: GMO free but not certified

Vegan: Does not contain animal-derived components
