4 FIRST AID MEASURES

Eyes: Flush eyes with water for at least 15 minutes. If irritation persists, seek medical attention.
Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration using a pocket mask type resuscitator. Seek medical attention immediately.
Skin: Immediately remove contaminated clothing and shoes. Wash off immediately with plenty of water for at least 15 minutes. Seek medical attention immediately.
Ingestion: Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. Seek medical attention if necessary.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperature. Use appropriate media (sprayed water jet, foam dry powder, CO₂) for adjacent fire. No unsuitable extinguish media listed.
Special protective equipment & precautions for firefighters: Wear self-contained breathing apparatus with a full face-piece in the positive pressure demand mode with appropriate turn-out gear and chemical resistant PPE. Structural firefighter's protective clothing will only provide limited protection. Water or foam may cause frothing which can be violent and possibly endanger the life of the fire fighter. Water may be used to keep fire-exposed containers cool until fire is out
Flash Points: No data available.
Specific hazards arising from the chemical: Toxic fumes when combustion or in high temperatures occur. See also stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: No danger exists as adding agents of detergent. Wash off in clean water. Use approved dust mask if dust levels are irritating. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions: Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.
Methods and material for containment and cleaning up: Use with adequate ventilation. Collect spill for later disposal. Prevent entry into waterway and sewers. Collect as much as possible in a clean container for reuse or disposal. Dispose of all waste and cleanup materials in accordance with regulations.

7 HANDLING & STORAGE

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and prompt removal of material from eyes skin and clothing. See section 8 for recommendations on the use of personal protective equipment.
Conditions for safe storage, incl. any incompatibilities: Store at normal temperature and pressure. Keep container closed when not in use. Empty container contains residual product which may exhibit hazards of product. Avoid prolonged exposure to heat and air. Store away from incompatible materials (see section 10 for incompatibilities).
