

1466 - Provitamin B5 Resurfacing Gel (100.00g)

Ingredient	Function	Percent	Wgt (g)	Wgt (oz)	Vol (tsp.)
Phase A					
Botanical Gel Base Aloe barbadensis (Aloe) juice, hydroxyethyl cellulose, glycerin, carica papaya (Papaya) extract, carica papaya (Green Papaya) extract, ananas comosus (Pineapple) extract, phenoxyethanol, tetrasodium EDTA, citric acid.	Diluent	77.00	77.00	2.72	15.40
Lactic Acid (lactic acid)	Peel	15.00	15.00	0.53	3.00
Glycolic Acid (glycolic acid)	Peel	5.00	5.00	0.18	1.00
Phase B					
Triethanolamine (triethanolamine)	pH Adjuster	1.50	1.50	0.05	0.30
Provitamin B5 Powder (dl-panthenol)	Antioxidant	1.50	1.50	0.05	0.30
Method					
Quick and easy done. Add botanical gel base into a glass beaker. Add acids and stir very well, until uniform and gel like. Test the pH if below 4.0 add 1-2 drops of TEA (for this 100g/3.6oz) quantity, then test again. Ideal pH should be 4. Add Provitamin B5 powder and mix well to dissolve.
