Method

1. Combine phase A ingredients by dissolving the hyaluronic acid in the water. 2. Blend remaining ingredients (except xanthan gum) and blend well. 3. Add xanthan gum and blend well until smooth (stick blender, homogenizer). 4. Add phase B and blend well. 5. add phase C and blend well. Can be packaged into a small bottle with pump or spray device. Can easily be spritzed onto the skin after cleansing. Can also be added as a moisturizing primer under cream, or foundation.

Properties

Deeply moisturizing and soothing. Green micro-algae, greenish-blue algae, and nitrogen-fixing seaweed are components in the Plankton Extract. Rich in silicon, vitamins and minerals, with anti-oxidant properties from Green Tea, and moisture from hyaluronic acid.
